3 New Schools May Join South Central Sports Loop

Possibilities of three new schools joining the South Central Ohio Athletic League were discussed during a regular fall meeting held at Circleville High School last night.

Approximately 75 SCOL coaches, school heads and press representatives were informed that Paint Valley, Pleasant View and Beaver Creek, all newly consolidated schools, have expressed interest in joining the South Central OhioLoop .

Paint Valley, in Ross County, is a consolidation of Twin and Bainbridge High Schools. Pleasant View, a consolidated school still under construction, is located in the Southwest School District of Franklin County. This school will be a neighbor to Franklin Heights, newest member of the South Central Ohio Loop.

Beaver Creek is a new Class AA school located near Xenia in Green County. League officials said this school probably will get first consideration since it already is participating in football.

• • •

PLEASANT View is scheduled to be completed by the 1959-60 school year. In case any of the schools are accepted into the league prior to the 1959-60 years, League heads said the new additions will not be considered in SCOL athletic standings for this period. However, it was decided that the schools could be included on all sports schedules.

All three of the possible new entries will be investigated by a special committee of the SCOL.

A highlight of the meeting last night was the selection of an All-South Central Ohio League football team for the past season. The squads were named by grid coaches following a delicious dinner prepared and served by the cooks at Circleville High School.

Another item of discussion was the possibility of organizing a wrestling league. Circleville and Franklin Heights will have wrestling teams this year and chances are other schools will follow suit.

Washington C. H., Greenfield and Franklin Heights officially were awarded the three-way championship for this year's football crown. Last season's baseball title was presented to Circleville and the track championship went to Franklin Heights.

Other business included discussion of standard size trophies for league winners and ways and means to promote better scheduling for junior high school sports.

It was decided that the spring league meeting will be held at Franklin Heights. Coaches also agreed that Franklin Heights would host the league's annual spring track meet.

Cause of Death In Torch Case Baffles Police

Did Cincinnati Wife Die in Clinton or Hamilton County?

CINCINNATI (AP) — The question of whether the death of Mrs. Martha Louise Bergen was caused by a gunshot wound, a bludgeoning on the head or by burning plagued Cincinnati police today.

So did the question as to whether she was killed in Hamilton County or Clinton County.

And they were being pressed for action by William F. Hopkins, attorney for 40-year-old Mrs. Edythe Klumpp, a part time school teacher, who police say, admitted the slaying but claimed it was in self defense.

This morning, a formal charge of first degree murder was filed against Mrs. Klumpp. The affidavit was signed by Cincinnati Detective Wilbur Stagenhorst. She will be arraigned in Cincinnati Police Court Friday.

Police apparently were leaning toward the gunshot theory which is the way Mrs. Klumpp says Mrs. Bergen was killed.

Attorneys said a murder charge, already filed in Clinton County, was a tactical move to allow Mrs. Bergen's body to be brought back. It was enroute to Pennsylvania when Mrs. Klumpp was arrested Tuesday.

Detective Chief Henry Sandman said Mrs. Klumpp claimed Mrs. Bergen was shot to death in Hamilton County as they struggled for possession of a gun. He said Mrs. Klumpp related she had met Mrs. Bergen to ask her to divorce her estranged husband, William, so he and Mrs. Klumpp could be married.

Sandman said Mrs. Klumpp told officers she placed the body in the trunk of her car and that the next day she took it to a lake shore in Clinton County and set it afire.

She said the slaying occurred Oct. 30. The charred body was found Nov. 1.

But Mrs. Klumpp's story didn't jibe with findings of Dr. Frank Cleveland, Cincinnati pathologist.

He had reported previously that Mrs. Bergen's head was smashed and that she might still have been alive when her body was set afire. He made another examination Wednesday and said there was "metal residue" in charred tissue of Mrs. Bergen's throat where Mrs. Klumpp said she was shot.

Police said Mrs. Klumpp told them a .22 caliber target pistol they found at her home several days ago was the weapon used. She said she had left it in the glove compartment after doing some target shooting and that when she noticed it the day of the shooting she took it out, wrapped it in a rag and placed it on the front seat so she wouldn't forget it.

Mrs. Klumpp was quoted by the officers as saying she met Mrs. Bergen at a suburban shopping center and that they drove away to discuss the divorce matter. She said Mrs. Bergen told her she would fight to retain her husband.

She claimed that Mrs. Bergen pointed the gun at her when she got out to remove a pop bottle that was wedged under the seat.

"I grabbed for the gun,' she said. "I got hold of her hand and her arm. We kind of wrestled around and the gun went off."

Mrs. Klumpp related that she returned here and taught two sewing classes that night. The next day, she said, she took three small children, who were day boarders at her home, with her when she drove to Lake Cowan and burned the body. Police said the children apparently did not know what Mrs. Klumpp was doing.

Mrs. Klumpp made her statement after being given a lie detector test. She had been under investigation during a routine check of Mrs. Bergen's acquaintances.

Bergen had little to say about the case. He declared "I don't know" when asked if he was in love with Mrs. Klumpp.

Jet Fighter Hit by Train

No One Seriously Hurt In California Mishap

EL TORO, Calif. (AP)—A jet fighter plane overshot an airfield and crashed on railroad tracks Wednesday. Seconds later, a seven-car passenger train plowed into the plane.

The train sent the jet cartwheeling through the air. The plane came to rest against a lounge car containing 30 passengers. Jet fuel exploded in flames.

The locomotive and four cars were derailed. Three sections of track were torn up. But no one was seriously injured.

The plane's pilot, who suffered only bruises, was the most seriously hurt.

"I'd say the good Lord had his arm around a lot of people," said a spokesman at the El Toro Marine Corps Air Station, where the jet was practicing landings.

Hero of the near-disaster was Pat Schamber, brakeman on the Santa Fe's San Diegan, bound to San Diego from Los Angeles with 130 passengers and crew.

He dragged the stuned pilot, Marine 2nd Lt. Phillip M. Schmidt, 23, from the wreckage. When they were about 50 feet away the F4D skyray burst into flames.

Schmidt, practicing a power-off landing, overshot a steel cable across the runway on which the plane was to hook. The jet bounced over an 8-foot fence, streaked across a beanfield, sheared off a power pole and slammed onto the railroad tracks. The train was approaching at 75 miles an hour.

"I saw nothing but a cloud of dust on the tracks about 250 feet ahead of me," said engineer William Ryder, 63. "I put on the emergency brake. Two or three seconds later came the impact. It took another 125 yards to bring the train to a halt."

The pilot, son of Mr. and Mrs. William M. Schmidt, Cincinati, was taken to the station hospital for observation.

Pickaway Dairy Employes Say 'No' to Union

Employes of the Pickaway Dairy Co-Operative Assn. yesterday voted 19-10 against union representation.

In an election conducted by the National Labor Relations Board, the employes decided not to allow the union to bargain with the company for them.

Seeking election as representative of the employes was a Columbus local of the Retail, Wholesale and Department Store Union, AFL-CIO. The union requested the NURB for the representational election.

The vote was conducted yesterday with an NLRB field man on hand. Officials of the union today announced the results of the election. Company officials had no comment other than "the union was defeated."

REDS' BERLIN PLANS SET

Survivors Tell Grim Story of Ship Disaster in Stormy Lake Michigan

CHARLEVOIX, Mich. (AP) — The grim story of the sinking of a storm-battered Great Lakes freighter which carried 33 men to a watery grave was told Wednesday night by the two survivors of the disaster.

Frank Mays and Elmer Fleming were thrown from their small raft three times in the night by the violent waters of northern Lake Michigan and three times they managed to find the raft in the dark, climb aboard and hang on for their lives.

Mays and Fleming, the only known survivors of the giant cargo ship, Carl D. Bradley, which went down Tuesday, told their stories from their hospital beds here.

The two were plucked from the swirling waters by a Coast Guard cutter that recovered eight floating bodies.

The job of trying to identify the bodies went on through the night in this town's little one-story city hall which has been turned into a temporary morgue.

Coast Guard teams searched the islands and waters near here where the ship went down and planned another search today on the chance some other crewmen made it to land.

Eighteen bodies were recovered by sundown Wednesday. Seventeen were here. The other was picked up by a freighter bound for Milwaukee. Fifteen men are still missing in the worst Great Lakes shipping disaster in 18 years.

Mays and Fleming told of the terror and confusion on the sinking Bradley, once the largest freighter on the Great Lakes, and of their praying and shivering on the tossing raft in near-freezing temperatures.

Fleming, the Bradley's first mate and a 43-year-old veteran of sailing the Great Lakes, did most of the talking.

"I was in the pilot house on watch with the captain,' he said. "We heard a thud. Then the alarm bell started ringing.

"Something spun us around," he said. "Then we looked down on the deck. It wasn't hard to see something was wrong. The stern was sagging."

Fleming managed to get off a distress signal on the Bradley's radio. Then he was in the cold water. It was almost sundown.

"We climbed on the raft and held on with all we had."

At first there were four on the raft, a firmly built orange-painted wooden structure with a low metal railing and metal pontoons.

"We lost one of them when the raft took a complete flip," Fleming said. "I swam until I got back to it. Then I helped the others get back on."

Twice more the waves whipped up by a 60-mile-an-hour wind lifted the raft and overturned it.

"I've never been so cold in my life," Fleming said. "Ice was begining to form on my jacket and in my hair."

Mays, 26, was below decks in the conveyer room when the mysterious thud and the alarm bells sent him runing to deck.

"Once we got on the raft," he said, "I thought we'd be all right. I knew they would find us."

The Bradley carried one raft and two lifeboats. Although there were scattered reports of debris, the two lifeboats were not found in the first day of the search.

Gale warnings were posted on Lake Michigan on Tuesday and many small ships went to the nearest coastal haven. But the Bradley, like most of the bigger freighters usually do, kept moving to ride it out.

There were reports that the 615-foot Bradley split in two after an explosion.

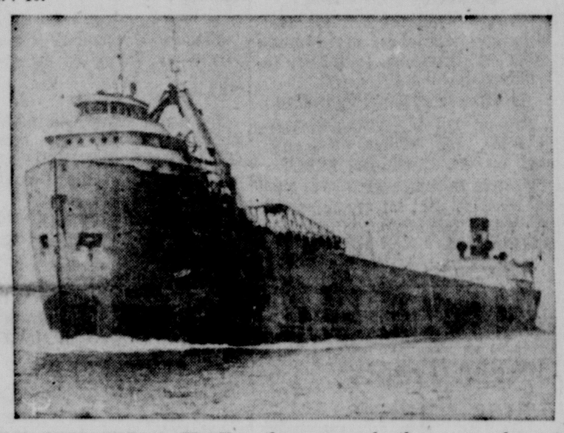

Fleming said he believed there was a slight explosion just as the stern sank.

Norman Hoeft, manager of Bradley Transportation Lines, said there was nothing on the ship that could cause an explosion big enough to sink it.

The Bradley was carrying about 9,000 tons of water ballast—about capacity — enroute to Rogers City, Mich., the home of Mays and Fleming and most crew members, after delivering a load of limestone at Gary, Ind.

LOST WITH THE BRADLEY — Grief-stricken Mrs. Joseph Krawczak, wife of a wheelsman aboard the cargo ship, Carl D. Bradley, sits stunned with her six children in their Rogers City, Mich., home. The children are (from left) Ronald, 11, Andria, 3, Jo Lynn, 3 months, Rose Ann, 7, Kathy, 4, and Jacinto, 10.

FATAL FREIGHTER — The X on the map marks the area where two survivors of the sunk Great Lakes limestone carrier, Carl D. Bradley, were rescued yesterday. The ship with 35 aboard was running empty from Chicago to Rogers City, Mich. home of most of the crew, when she broke up in a storm.

Carouser's Ad Gets Results

TOKYO (AP) — This advertisement appeared in the English language newspaper Mainichi:

"Smoking, drinking, carousing, Japanese-speaking Caucasian gentleman wishes to meet smoking, drinking, carousing, Japanese-speaking lady. Object: smoking, drinking, carousing."

A girl clerk at the paper said the advertiser was a "handsome man who looked like a movie actor." She said he picked up five replies.

Wholesale Food Prices Reported Holding Steady

NEW YORK (AP) — Wholesale food prices held steady this week after a four-week runup, Dun & Bradstreet Inc. reported today.

The organization's food index was unchanged from last week at $6.38 and up 1.6 per cent from the $6.28 reading a year ago.

The index represents the total cost at wholesale of one pound each of 31 foods in general use.

Lucas, Fairfield Legislators Tipped as Assembly Chiefs

COLUMBUS, Ohio (AP) — This apparently official word is being "leaked" freely in Ohio political circles today:

Sen. Frank W. King (D-Lucas) has Gov.-elect Michael V. DiSalle's blessing in his bid to become Ohio Senate president pro tem.

Rep. James A. Lantz (D-Fairfield) is DiSalle's choice for speaker of the Ohio House.

Legislators who inquire at Columbus and Toledo Democratic headquarters are being slipped the word that DiSalle will make his choices official at a Toledo meeting of Democratic leaders Dec. 2.

Democrats will take over both houses of the Legislature in January for the first time in a decade. DiSalle reportedly has sanctioned the King-Lantz leak to avoid bitter pre-session battles over the posts.

King is a bricklayer and an instructor of apprentices for the Toledo Board of Education. He is 46 and was elected last month to his fourth consecutive Senate term. He served one House term.

Lantz, 37-year-old Lancaster attorney, apparently has been chosen as one of the up-and-coming young men of the Ohio Democratic Party. He will be starting his third House term.

King's rivals for the top Senate spot are Sens. Charles J. Carney (D-Mahoning), Fred Harter (D-Summit), Arthur Blake (D-Belmont) and Edward H. Dell (D-Butler).

Rep. James J. McGettrick (D-Cuyahoga), who has been House minority leader in recent sessions, is a candidate for the speakership.

While the selection of leadership for the two houses is the duty of party caucuses, the actual choice generally is made by the governor if he is of the same political faith as the majority party in the two houses.

Spaak Warns West Of Red Subversion

PARIS (AP)—Secretary General Paul-Henri Spaak warned North Atlantic Alliance legislators today not to reject a friendly nation's appeal for help against iternal subversion and external pressure.

The Soviet Union will use subversion and pressure in the future in Asia and Africa, Spaak predicted. He said the same tactics might be applied again in Europe if the North Atlantic Alliance relaxes its vigilance.

The parliamentary group's Political Committee approved a resolution declaring that the West should resist Soviet withdrawal from the Berlin occupation authority as a "flagrant unilateral renunciation of international agreements."

Three Injured In Collision On Route 62

Three persons were injured, none seriously, when two cars and a tractor-cornpicker collided on Route 62 near Era at 6 p. m. yesterday.

Robert Jackson, 33, Route 3, Sabina, driver of one of the cars, was taken to Mt. Carmel Hospital, Columbus, for facial lacerations and possible head and chest injuries.

Joseph Fitzgerald, 19, Derby, driver of the other auto, suffered lacerations of the hand, nose and left leg. He was treated by a Mt. Sterling physician.

The tractor, pulling a cornpicker, was operated by Russell Riddle, 55, Route 1, Orient. He was taken to Grant Hospital, Columbus, for lacerations of the scalp and bruises.

• • •

ACCORDING to Deputy Sheriff Charles Felkey, Fitzgerald's northbound car attempted to pass Riddle's tractor. Jackson's auto was passing the tractor from the opposite direction and all three collided, the deputy added.

Felkey said all three vehicles were heavily damaged.

Soviet Envoy Gives Details To Adenauer

End to Occupation By All Powers Said To Be Kremlin Goal

BONN, Germany (AP) — Soviet Ambassador Andrei Smirnov told Chancellor Konrad Adenauer today what the Russians intend to do "to realize the liquidation of the occupation status of Berlin."

Neither Smirnov nor the Bonn government disclosed what was said. But Soviet sources in Berlin said the Russians will give East Germany's Communist regime control of the West's land, air and rail routes to the isolated old capital.

In West Berlin, Mayor Willy Brandt told the city's Parliament the Western Allies have promised "clearly and without reservation" to defend the Communist-threatened city.

There was no inkling when the Russians might make their move. The crisis was set boiling 10 days ago by Soviet Premier Nikita Khrushchev in a Moscow declaration saying the Russians intended to end the four-power occupation of Berlin.

Smirnov's visit to Adenauer came as a surprise. Some Western diplomats said they thought the move rather weakened the Russian argument that all Berlin properly belongs to their puppet East German government.

Western officials here had been expecting some kind of formal notice from the Russians to the Americans, British and French who with the Soviet Union have been occupying Berlin for 13 years.

Bonn and its Western Allies have long maintained that West Berlin, although surrounded by East German territory, is within the Western orbit and will remain so until all Germany is reunified through free elections.

A Western diplomat said Moscow's tactics about Berlin were similar to those displayed during the Middle East and Far East crises.

"They try to get everybody excited," he said. "What they would like to hear is a lot of talk about Berlin not being important enough to go to war about."

But, he asserted, the Western Powers—including West Germany — are determined to stand fast and not panic.

And in Washington, the Western Big Three are reported drafting a tough policy to deal with any Communist move to interfere with Allied air, rail and highway traffic to West Berlin.

This U.S.-British-French policy is taking shape in diplomatic consultation amid mounting belief the East German Reds will seek to interrupt transportation to the divided city.

If a new Berlin blockade threatens, diplomatic officials said the Allied governments could face far-reaching decisions on whether to:

1. Try to ram an armored train or tank-led truck convoys through any barriers the East Germans might erect.

2. Revive the Allied airlift which licked the Red blockade 10 years ago.

Initially, the Allied counter-strategy may involve strictly limited dealings with East German authorities who might replace Soviet personnel at checkpoints.

This has not been decided definitely yet, mainly because the West Germans are reported objecting. The East Germans, it is felt, might ballyhoo such dealings as a step toward Allied recognition.

Allied diplomats acknowledged that any such policy would be a partial reversal of the present attitude of no contact whatever with the Soviet puppet government.

But, they said, any such Allied-East German contacts would be carried out only with well-publicized announcements that the East Germans are being treated as agents of the Soviet Union.

Farmer Takes Day Off; He's 100 Years Young

TWIN FALLS, Idaho (AP) — Farmer Herschel Sonner has been pretty busy — removing old fruit trees from his orchard and clearing weeds from the sheep pasture.

But he had to take a day off Wednesday to chin with some 30 relatives. It was his 100th birthday, and the family wanted to have a nice party for him. He planned to get right back to his chores.

Dancers Swish, Not Stomp

NEW YORK (AP) — Two or 200 persons may tango over Leon Tom's head, but they'd better swish, not stomp.

That's the implication of a court ruling Wednesday. The effect on Tom, a dealer in diamonds, is apt to be countless sleepless nights.

Tom lives beneath a dance studio where Robert Luis, 54-year-old master of the tango, the cha-cha and the calypso, presides.

Many times in the past 3½ years, Tom has complained to police of noise-shattering nights in which he had to flee to his office to escape Luis' heavy-footed students.

Two convictions failed to deter Luis from his art. The usual charge brought him before Magistrate Walter J. Bayer Wednesday.

Luis said he always wears sneakers, except when instructing. Then he wears thin-soled slippers.

The instructor said that, as he interprets the dance, he teaches his pupils to glide, to swish, but never to stomp.

Alice Lacour, a blonde pupil, took the stand.

"It was a silent studio," she told the judge "and very refined."

"The court holds there is reasonable doubt," Bayer said. "Therefore, I find the defendant not guilty and the charge is dismissed."

Schmidt, practicing a power-off landing, overshot a steel cable across the runway on which the plane was to hook. The jet bounced over an 8-foot fence, streaked across a beanfield, sheared off a power pole and slammed onto the railroad tracks. The train was approaching at 75 miles an hour.

"I saw nothing but a cloud of dust on the tracks about 250 feet ahead of me," said engineer William Ryder, 63. "I put on the emergency brake. Two or three seconds later came the impact. It took another 125 yards to bring the train to a halt."

The pilot, son of Mr. and Mrs. William M. Schmidt, Cincinati, was taken to the station hospital for observation.

Pickaway Dairy Employes Say 'No' to Union

Employes of the Pickaway Dairy Co-Operative Assn. yesterday voted 19-10 against union representation.

In an election conducted by the National Labor Relations Board, the employes decided not to allow the union to bargain with the company for them.

Seeking election as representative of the employes was a Columbus local of the Retail, Wholesale and Department Store Union, AFL-CIO. The union requested the NURB for the representational election.

The vote was conducted yesterday with an NLRB field man on hand. Officials of the union today announced the results of the election. Company officials had no comment other than "the union was defeated."

REDS' BERLIN PLANS SET

Survivors Tell Grim Story of Ship Disaster in Stormy Lake Michigan

CHARLEVOIX, Mich. (AP) — The grim story of the sinking of a storm-battered Great Lakes freighter which carried 33 men to a watery grave was told Wednesday night by the two survivors of the disaster.

Frank Mays and Elmer Fleming were thrown from their small raft three times in the night by the violent waters of northern Lake Michigan and three times they managed to find the raft in the dark, climb aboard and hang on for their lives.

Mays and Fleming, the only known survivors of the giant cargo ship, Carl D. Bradley, which went down Tuesday, told their stories from their hospital beds here.

The two were plucked from the swirling waters by a Coast Guard cutter that recovered eight floating bodies.

The job of trying to identify the bodies went on through the night in this town's little one-story city hall which has been turned into a temporary morgue.

Coast Guard teams searched the islands and waters near here where the ship went down and planned another search today on the chance some other crewmen made it to land.

Eighteen bodies were recovered by sundown Wednesday. Seventeen were here. The other was picked up by a freighter bound for Milwaukee. Fifteen men are still missing in the worst Great Lakes shipping disaster in 18 years.

Mays and Fleming told of the terror and confusion on the sinking Bradley, once the largest freighter on the Great Lakes, and of their praying and shivering on the tossing raft in near-freezing temperatures.

Fleming, the Bradley's first mate and a 43-year-old veteran of sailing the Great Lakes, did most of the talking.

"I was in the pilot house on watch with the captain,' he said. "We heard a thud. Then the alarm bell started ringing.

"Something spun us around," he said. "Then we looked down on the deck. It wasn't hard to see something was wrong. The stern was sagging."

Fleming managed to get off a distress signal on the Bradley's radio. Then he was in the cold water. It was almost sundown.

"We climbed on the raft and held on with all we had."

At first there were four on the raft, a firmly built orange-painted wooden structure with a low metal railing and metal pontoons.

"We lost one of them when the raft took a complete flip," Fleming said. "I swam until I got back to it. Then I helped the others get back on."

Twice more the waves whipped up by a 60-mile-an-hour wind lifted the raft and overturned it.

"I've never been so cold in my life," Fleming said. "Ice was begining to form on my jacket and in my hair."

Mays, 26, was below decks in the conveyer room when the mysterious thud and the alarm bells sent him runing to deck.

"Once we got on the raft," he said, "I thought we'd be all right. I knew they would find us."

The Bradley carried one raft and two lifeboats. Although there were scattered reports of debris, the two lifeboats were not found in the first day of the search.

Gale warnings were posted on Lake Michigan on Tuesday and many small ships went to the nearest coastal haven. But the Bradley, like most of the bigger freighters usually do, kept moving to ride it out.

There were reports that the 615-foot Bradley split in two after an explosion.

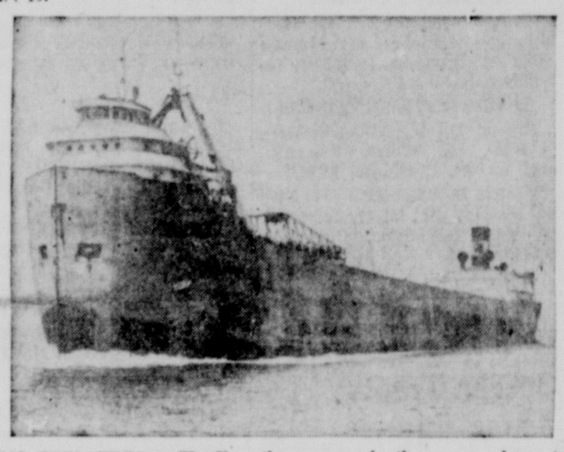

Fleming said he believed there was a slight explosion just as the stern sank.

Norman Hoeft, manager of Bradley Transportation Lines, said there was nothing on the ship that could cause an explosion big enough to sink it.

The Bradley was carrying about 9,000 tons of water ballast—about capacity — enroute to Rogers City, Mich., the home of Mays and Fleming and most crew members, after delivering a load of limestone at Gary, Ind.

LOST WITH THE BRADLEY — Grief-stricken Mrs. Joseph Krawczak, wife of a wheelsman aboard the cargo ship, Carl D. Bradley, sits stunned with her six children in their Rogers City, Mich., home. The children are (from left) Ronald, 11, Andria, 3, Jo Lynn, 3 months, Rose Ann, 7, Kathy, 4, and Jacinta, 10.

FATAL FREIGHTER — The X on the map marks the area where two survivors of the sunk Great Lakes limestone carrier, Carl D. Bradley, were rescued yesterday. The ship with 35 aboard was running empty from Chicago to Rogers City, Mich. home of most of the crew, when she broke up in a storm.

Carouser's Ad Gets Results

TOKYO (AP) — This advertisement appeared in the English language newspaper Mainichi:

"Smoking, drinking, carousing, Japanese-speaking Caucasian gentleman wishes to meet smoking, drinking, carousing, Japanese-speaking lady. Object: smoking, drinking, carousing."

A girl clerk at the paper said the advertiser was a "handsome man who looked like a movie actor." She said he picked up five replies.

Wholesale Food Prices Reported Holding Steady

NEW YORK (AP) — Wholesale food prices held steady this week after a four-week runup, Dun & Bradstreet Inc. reported today.

The organization's food index was unchanged from last week at $6.38 and up 1.6 per cent from the $6.28 reading a year ago.

The index represents the total cost at wholesale of one pound each of 31 foods in general use.

Lucas, Fairfield Legislators Tipped as Assembly Chiefs

COLUMBUS, Ohio (AP) — This apparently official word is being "leaked" freely in Ohio political circles today:

Sen. Frank W. King (D-Lucas) has Gov.-elect Michael V. DiSalle's blessing in his bid to become Ohio Senate president pro tem.

Rep. James A. Lantz (D-Fairfield) is DiSalle's choice for speaker of the Ohio House.

Legislators who inquire at Columbus and Toledo Democratic headquarters are being slipped the word that DiSalle will make his choices official at a Toledo meeting of Democratic leaders Dec. 2.

Democrats will take over both houses of the Legislature in January for the first time in a decade. DiSalle reportedly has sanctioned the King-Lantz leak to avoid bitter pre-session battles over the posts.

King is a bricklayer and an instructor of apprentices for the Toledo Board of Education. He is 46 and was elected last month to his fourth consecutive Senate term. He served one House term.

Lantz, 37-year-old Lancaster attorney, apparently has been chosen as one of the up-and-coming young men of the Ohio Democratic Party. He will be starting his third House term.

King's rivals for the top Senate spot are Sens. Charles J. Carney (D-Mahoning), Fred Harter (D-Summit), Arthur Blake (D-Belmont) and Edward H. Dell (D-Butler).

Rep. James J. McGettrick (D-Cuyahoga), who has been House minority leader in recent sessions, is a candidate for the speakership.

While the selection of leadership for the two houses is the duty of party caucuses, the actual choice generally is made by the governor if he is of the same political faith as the majority party in the two houses.

Spaak Warns West Of Red Subversion

PARIS (AP)—Secretary General Paul-Henri Spaak warned North Atlantic Alliance legislators today not to reject a friendly nation's appeal for help against iternal subversion and external pressure.

The Soviet Union will use subversion and pressure in the future in Asia and Africa, Spaak predicted. He said the same tactics might be applied again in Europe if the North Atlantic Alliance relaxes its vigilance.

The parliamentary group's Political Committee approved a resolution declaring that the West should resist Soviet withdrawal from the Berlin occupation authority as a "flagrant unilateral renunciation of international agreements."

Three Injured In Collision On Route 62

Three persons were injured, none seriously, when two cars and a tractor-cornpicker collided on Route 62 near Era at 6 p. m. yesterday.

Robert Jackson, 33, Route 3, Sabina, driver of one of the cars, was taken to Mt. Carmel Hospital, Columbus, for facial lacerations and possible head and chest injuries.

Joseph Fitzgerald, 19, Derby, driver of the other auto, suffered lacerations of the hand, nose and left leg. He was treated by a Mt. Sterling physician.

The tractor, pulling a cornpicker, was operated by Russell Riddle, 55, Route 1, Orient. He was taken to Grant Hospital, Columbus, for lacerations of the scalp and bruises.

• • •

ACCORDING to Deputy Sheriff Charles Felkey, Fitzgerald's northbound car attempted to pass Riddle's tractor. Jackson's auto was passing the tractor from the opposite direction and all three collided, the deputy added.

Felkey said all three vehicles were heavily damaged.

Soviet Envoy Gives Details To Adenauer

End to Occupation By All Powers Said To Be Kremlin Goal

BONN, Germany (AP) — Soviet Ambassador Andrei Smirnov told Chancellor Konrad Adenauer today what the Russians intend to do "to realize the liquidation of the occupation status of Berlin."

Neither Smirnov nor the Bonn government disclosed what was said. But Soviet sources in Berlin said the Russians will give East Germany's Communist regime control of the West's land, air and rail routes to the isolated old capital.

In West Berlin, Mayor Willy Brandt told the city's Parliament the Western Allies have promised "clearly and without reservation" to defend the Communist-threatened city.

There was no inkling when the Russians might make their move. The crisis was set boiling 10 days ago by Soviet Premier Nikita Khrushchev in a Moscow declaration saying the Russians intended to end the four-power occupation of Berlin.

Smirnov's visit to Adenauer came as a surprise. Some Western diplomats said they thought the move rather weakened the Russian argument that all Berlin properly belongs to their puppet East German government.

Western officials here had been expecting some kind of formal notice from the Russians to the Americans, British and French who with the Soviet Union have been occupying Berlin for 13 years.

Bonn and its Western Allies have long maintained that West Berlin, although surrounded by East German territory, is within the Western orbit and will remain so until all Germany is reunified through free elections.

A Western diplomat said Moscow's tactics about Berlin were similar to those displayed during the Middle East and Far East crises.

"They try to get everybody excited," he said. "What they would like to hear is a lot of talk about Berlin not being important enough to go to war about."

But, he asserted, the Western Powers—including West Germany — are determined to stand fast and not panic.

And in Washington, the Western Big Three are reported drafting a tough policy to deal with any Communist move to interfere with Allied air, rail and highway traffic to West Berlin.

This U.S.-British-French policy is taking shape in diplomatic consultation amid mounting belief the East German Reds will seek to interrupt transportation to the divided city.

If a new Berlin blockade threatens, diplomatic officials said the Allied governments could face far-reaching decisions on whether to:

1. Try to ram an armored train or tank-led truck convoys through any barriers the East Germans might erect.

2. Revive the Allied airlift which licked the Red blockade 10 years ago.

Initially, the Allied counterstrategy may involve strictly limited dealings with East German authorities who might replace Soviet personnel at checkpoints.

This has not been decided definitely yet, mainly because the West Germans are reported objecting. The East Germans, it is felt, might ballyhoo such dealings as a step toward Allied recognition.

Allied diplomats acknowledged that any such policy would be a partial reversal of the present attitude of no contact whatever with the Soviet puppet government.

But, they said, any such Allied-East German contacts would be carried out only with well-publicized announcements that the East Germans are being treated as agents of the Soviet Union.

Farmer Takes Day Off; He's 100 Years Young

TWIN FALLS, Idaho (AP) — Farmer Herschel Sonner has been pretty busy — removing old fruit trees from his orchard and clearing weeds from the sheep pasture.

But he had to take a day off Wednesday to chin with some 30 relatives. It was his 100th birthday, and the family wanted to have a nice party for him. He planned to get right back to his chores.

Dancers Swish, Not Stomp

NEW YORK (AP) — Two or 200 persons may tango over Leon Tom's head, but they'd better swish, not stomp.

That's the implication of a court ruling Wednesday. The effect on Tom, a dealer in diamonds, is apt to be countless sleepless nights.

Tom lives beneath a dance studio where Robert Luis, 54-year-old master of the tango, the cha-cha and the calypso, presides.

Many times in the past 3½ years, Tom has complained to police of noise-shattering nights in which he had to flee to his office to escape Luis' heavy-footed students.

Two convictions failed to deter Luis from his art. The usual charge brought him before Magistrate Walter J. Bayer Wednesday.

Luis said he always wears sneakers, except when instructing. Then he wears thin-soled slippers.

The instructor said that, as he interprets the dance, he teaches his pupils to glide, to swish, but never to stomp.

Alice Lacour, a blonde pupil, took the stand.

"It was a silent studio," she told the judge "and very refined."

"The court holds there is reasonable doubt," Bayer said. "Therefore, I find the defendant not guilty and the charge is dismissed."

More Courthouse Employees Receive Salary Increases

Effective November 1, personnel of the Pickaway County Auditor's office received an increase in salary of $16 a month, it was announced today by Auditor Mrs. Verna M. O'Hara.

The auditor's department will be the fourth county office to receive increases during 1958. Other offices granted increases have been the Common Pleas Clerk of Court's office, the Probate Court and the County Engineering Department.

County office heads do not need the approval of the County Commissioners for salary increase if their budgets, which they requested and were approved by the Commissioners at the beginning of the year, have the money available.

Mrs. O'Hara granted salary increases to deputies Mrs. Doris Kibler, raising her salary from $300 to $316; Mrs. Margaret Steele, from $250 to $266; Mrs. Virginia Russell, $250 to $266;

* * *

MISS BETTY Boardman, $250 to $266 and Mrs. Martha Ebenhack, $240 to $256.

Clerk of Court's deputies were granted increases by Judge William Ammer and approved by department head, James Mowery.

Those given raises were Mrs. Lillian Cook, from $225 to $250; Miss Leah Pettit, $225 to $250, and Mrs. Sara Dresback, $240 to $265. These raises were effective October 1.

County Engineer Henry McCrady approved raises to deputies Mrs. Mary McCrady, from $247 to $271, a raise of $24; Andrew Goeller, $319 to $335, a $16 raise and Edison Shellhamer, $351 to $400, a $49 increase. Mrs. McCrady's increase was effective August 1, Goeller's September 1 and Shellhamer's March 1.

The Probate Court granted raises to two employes after Judge Guy G. Cline filed a writ of mandamus ordering the commissioners to increase his budget. The writ was dismissed after the commissioners and Judge Cline came to an agreement.

Obtaining increases were Mrs. Leona Riegel, from $260 to $280, a $20 raise, and Mrs. Mary Grubb, from $90 to $125, an increase of $35 for part-time work. These raises were effective last January 15.

Toledo Theater Bank Night Closed

TOLEDO, Ohio (AP)—Booed by the audience, two police detectives strode on stage at the Colony Theater Wednesday night and confiscated equipment used to pick bank night winners.

Detective Albert Abrass said Joseph Tabner, master of ceremonies for the ceremonies, would be charged with operating a lottery.

Abrass and his partner, Daniel Perzinski, seized two revolving cylinders containing ticket stubs, a box of registration cards and the $100 consolation prize. There had been no winner when drawings were made for the $1,000 grand prize.

The City Law Department ruled recently that bank nights, where a cash prize drawing is used to attract patrons, is a lottery and illegal.

Logan Elm High School Will Remain at 550

The Logan Elm Board of Education in a meeting last night at Pickaway Twp. School decided basically not to change the size of the proposed consolidated high school.

The board will sell bonds for the raising of monies to erect the high school as soon as possible. The bonds will be sold in one block and the money will be reinvested in treasury certificates, which will be depleted as money is needed.

The board felt that the block sale of the bonds, which will be advertised as soon as the printing of the certificate issue is completed, would bring the better interest rate in the long run.

They hope to have the bond issue, approved by voters of the Logan Elm District on November 4, ready for sale by the latter part of December or the first of January, 1959.

* * *

THE BOARD now is accepting applications for superintendent of the district. They also will conduct investigations for the best man available. The board hopes to hire a person for the highly responsible position within six months, so he will be ready to assume his job on July 1, 1959.

The size of the school was left at approximately 500 to 550 student capacity. The board felt that there were enough pupils within the four-township district to warrant this 550 size and that future growth would prove its decision wise.

According to present population, the high school will have one and possibly two extra rooms which will not be partitioned. They will be used for study halls until pupil growth warrants their use as classrooms.

Then the dining area will serve the dual purpose as a cafeteria and study area. Board President Dr. Wells Wilson said, "The district population is adequately high enough to retain the proposed school's presently planned size. Future growth and possible mergers with other school areas will fill the school."

Wilson was referring to the possibility that Kingston residents favoring consolidation with the Logan Elm District might try again for consolidation. The Kingston-Union school district voters refused the consolidation at the November 4 election.

Informed sources stated that if the Kingston - Union consolidation issue had been voted on the day after the general election, in which the Logan Elm bond issue and current operating levy both passed, the merger would have passed.

* * *

THE BOARD now is in the process of contacting an engineer to survey the proposed site on the Raymond Moats farm, located on the Circleville-Tarlton Road, 1½ miles from Thatcher.

The surveyor will work with the architects on the planned school site, a roadway and designate the location of a test well.

It is part of the option of the 35 acres of land that a test well must be drilled to ascertain if there is an adequate water supply. If not, the board will look elsewhere.

The architects are starting to work on preliminary drawings for the board's approval. School officials desire to open the school for use in the fall of 1960.

Letters of appreciation were sent to Mr. and Mrs. Jack Smith, district co-chairmen of the bond issue and currently operating tax levy publicity committee, Bob Lands and Ralph Betz, co-chairmen of the Washington levy and bond issue committee, Lawrence McKenzie and Mrs. Mary Fraunfelter.

All members of the board were present along with two representatives of the Clearcreek Twp. school district, Fairfield County, Citizens Committee favoring consolidation which November 4 voted to consolidate with the Logan Elm area.

The board agreed to invite a representative of the Clearcreek Board of Education to sit in on all board meetings for observance and consultation. The observer will have no voting power.

2 Video Dramas Tonight To Be Presented via Tape

NEW YORK (AP)—Because of the threat of a strike by the American Federation of Television and Radio Artists, the television and radio performers' union, "Kiss Me Kate" will be seen on tape tonight over NBC-TV.

It should be a good example of the fact that the viewing audience can't tell the difference between live and taped television — provided the tape records the spontaneous quality of a straight run-through.

That is exactly the way it has been handled by producer-director George Schaefer of the "Hallmark Hall of Fame" production starring Alfred Drake, Patricia Morison and Julie Wilson in the Cole Porter musical.

"We have kept the same kind of excitement and live quality that we want in every 'Hallmark Hall of Fame' show," Schaefer says.

The taping of the TV adaptation of the Broadway hit was done last Saturday when a strike was scheduled for midnight — and then was postponed for 72 hours.

Schaefer says that the method used was the same as with every live TV show he directs — first a dress rehearsal "at full pitch," then Schaefer's notes of comment were read to the actors, and finally the straight run-through.

Another example of live television on tape will be visible tonight when "Playhouse 90" presents a Horton Foote adaptation of William Faulkner's "Old Man" on CBS-TV.

Sterling Hayden and Geraldine Page head the cast of the Fred Coe production directed by John Frankenheimer.

"Old man," a section of Faulkner's novel, "The Wild Palms," is one of his most celebrated stories. A program precis makes it sound terribly simple: two convicts put to work fighting the 1927 Mississippi flood and one wants to escape and one feels honor-bound to do his job and return.

Well, the story is not that simple. For one thing, a principal character is the rampaging Mississippi itself. In the story a woman gives birth in a skiff aided by the convict who has rescued her.

How "Playhouse 90" treats such scenes — or if it develops them at all — should be of interest to serious viewers everywhere.

Motorists Fined In Muny Court

Circleville Municipal Court's docket today included four motorists cited by the State Highway Patrol for traffic violations.

Arthur L. Day, 21, Mt. Sterling, and Rome P. Johnson, 19, Columbus, each was fined $15 and costs for speeding at 75 miles per hour.

William Napier, 36, Miami, Fla., and George F. Hulse, 63, Route 2, Circleville, each was fined $10 and costs for insufficient brakes.

Warren To Appear On Television

Roscoe Warren, 213 Linden Lane, will appear on the television program, "The Price Is Right", at 11 a. m. tomorrow on Channel 4, WLW-C.

Warren, on vacation in New York City with his wife, said he obtained tickets to the show and was selected from hundreds of persons for his appearance.

Bill Cullen is the program's master of ceremonies. Warren is a local insurance salesman for the Prudential Insurance Company of America.

More Courthouse Employees Receive Salary Increases

Effective November 1, personnel of the Pickaway County Auditor's office received an increase in salary of $16 a month, it was announced today by Auditor Mrs. Verna M. O'Hara.

The auditor's department will be the fourth county office to receive increases during 1958. Other offices granted increases have been the Common Pleas Clerk of Court's office, the Probate Court and the County Engineering Department.

County office heads do not need the approval of the County Commissioners for salary increase if their budgets, which they requested and were approved by the Commissioners at the beginning of the year, have the money available.

Mrs. O'Hara granted salary increases to deputies Mrs. Doris Kibler, raising her salary from $300 to $316; Mrs. Margaret Steele, from $250 to $266; Mrs. Virginia Russell, $250 to $266;

* * *

MISS BETTY Boardman, $250 to $266 and Mrs. Martha Ebenhack, $240 to $256.

Clerk of Court's deputies were granted increases by Judge William Ammer and approved by department head, James Mowery.

Those given raises were Mrs. Lillian Cook, from $225 to $250; Miss Leah Pettit, $225 to $250, and Mrs. Sara Dresback, $240 to $265. These raises were effective October 1.

County Engineer Henry McCrady approved raises to deputies Mrs. Mary McCrady, from $247 to $271, a raise of $24; Andrew Goeller, $319 to $335, a $16 raise and Edison Shellhamer, $351 to $400, a $49 increase. Mrs. McCrady's increase was effective August 1, Goeller's September 1 and Shellhamer's March 1.

The Probate Court granted raises to two employes after Judge Guy G. Cline filed a writ of mandamus ordering the commissioners to increase his budget. The writ was dismissed after the commissioners and Judge Cline came to an agreement.

Obtaining increases were Mrs. Leona Riegel, from $260 to $280, a $20 raise, and Mrs. Mary Grubb, from $90 to $125, an incraase of $35 for part-time work. These raises were effective last January 15.

Toledo Theater Bank Night Closed

TOLEDO, Ohio (AP)—Booed by the audience, two police detectives strode on stage at the Colony Theater Wednesday night and confiscated equipment used to pick bank night winners.

Detective Albert Abrass said Joseph Tabner, master of ceremonies for the ceremonies, would be charged with operating a lottery.

Abrass and his partner, Daniel Perzinski, seized two revolving cylinders containing ticket stubs, a box of registration cards and the $100 consolation prize. There had been no winner when drawings were made for the $1,000 grand prize.

The City Law Department ruled recently that bank nights, where a cash prize drawing is used to attract patrons, is a lottery and illegal.

Langer said today European nations get a better voter turnout with Sunday balloting than the United States does on Tuesdays.

Logan Elm High School Will Remain at 550

The Logan Elm Board of Education in a meeting last night at Pickaway Twp. School decided basically not to change the size of the proposed consolidated high school.

The board will sell bonds for the raising of monies to erect the high school as soon as possible. The bonds will be sold in one block and the money will be reinvested in treasury certificates, which will be depleted as money is needed.

The board felt that the block sale of the bonds, which will be advertised as soon as the printing of the certificate issue is completed, would bring the better interest rate in the long run.

They hope to have the bond issue, approved by voters of the Logan Elm District on November 4, ready for sale by the latter part of December or the first of January, 1959.

* * *

THE BOARD now is accepting applications for superintendent of the district. They also will conduct investigations for the best man available. The board hopes to hire a person for the highly responsible position within six months, so he will be ready to assume his job on July 1, 1959.

The size of the school was left at approximately 500 to 550 student capacity. The board felt that there were enough pupils within the four-township district to warrant this 550 size and that future growth would prove its decision wise.

According to present population, the high school will have one and possibly two extra rooms which will not be partitioned. They will be used for study halls until pupil growth warrants their use as classrooms.

Then the dining area will serve the dual purpose as a cafeteria and study area. Board President Dr. Wells Wilson said, "The district population is adequately high enough to retain the proposed school's presently planned size. Future growth and possible mergers with other school areas will fill the school."

Wilson was referring to the possibility that Kingston residents favoring consolidation with the Logan Elm District might try again for consolidation. The Kingston-Union school district voters refused the consolidation at the November 4 election.

Informed sources stated that if the Kingston - Union consolidation issue had been voted on the day after the general election, in which the Logan Elm bond issue and current operating levy both passed, the merger would have passed.

* * *

THE BOARD now is in the process of contacting an engineer to survey the proposed site on the Raymond Moats farm, located on the Circleville-Tarlton Road, 1½ miles from Thatcher.

The surveyor will work with the architects on the planned school site, a roadway and designate the location of a test well.

It is part of the option of the 35 acres of land that a test well must be drilled to ascertain if there is an adequate water supply. If not, the board will look elsewhere.

The architects are starting to work on preliminary drawings for the board's approval. School officials desire to open the school for use in the fall of 1960.

Letters of appreciation were sent to Mr. and Mrs. Jack Smith, district co-chairmen of the bond issue and currently operating tax levy publicity committee, Bob Lands and Ralph Betz, co-chairmen of the Washington levy and bond issue committee, Lawrence McKenzie and Mrs. Mary Fraunfelter.

All members of the board were present along with two representatives of the Clearcreek Twp. school district, Fairfield County, Citizens Committee favoring consolidation which November 4 voted to consolidate with the Logan Elm area.

The board agreed to invite a representative of the Clearcreek Board of Education to sit in on all board meetings for observance and consultation. The observer will have no voting power.

Transoceanic TV Due Soon

Will the man of the future be able to turn on his television set and, by simply changing channels, watch a bullfight in Spain, a rugby match in England, an Italian opera or the night life of Paris? Yes, say representatives of American companies now developing the means of transoceanic TV. And what's more, that man of the future may be you.

Transmission of television images across the Atlantic is not yet an actuality, but there are more people and firms engaged in research to this end than the average person may be aware of. Some companies, including International Telephone and Telegraph Corp, Page Communications Engineers Inc. and Technicolor Corp., believe they have developed systems which could do the job today. There are a few non-technical drawbacks which may delay the project for 10 years or more.

Of primary importance is the lack of money. Estimates of the cost range from $50 to $75 million. Thus, for no one has offered either the cash or the means of raising it. The second problem, allied with the first, is the lack of commercial interest in the idea.

Perhaps sponsors are somewhat jolted by the prospect of their commercials being shown outside the tight little circle of American viewers who have been accustomed, or perhaps even immune, to the constant barrage of patent medicines, easy-drawing filters and greaseless soaps.

Another stumbling block is the political opposition which could occur. One can imagine the myraid of censorships, criticisms and outraged indignations which would result from a simultaneous viewing of any of thousands of subjects, particularly when that image crosses not only national borders, but continents as well.

Much scientific effort has gone into the problem of transoceanic television transmission. One of the greater achievements of this work was the discovery that TV signals can be relayed over long distances with the aid of a process known as "troposcatter." This incorporates bouncing signals off the atmosphere, a blanket of gas five to 10 miles above the earth's surface, and recapturing and amplifying some of the signals reflected back to earth.

It would be ironic if the effort already expended in this direction should go down in history as one of the few remarkable human feats which succeeded scientifically but failed because of lack of human interest. Perhaps as the age of science unravels itself still further, the obstacles to this latest communication linkage of the continents will dissolve much the same as did those of telegraphy and the wireless.

Family Crisis Weathered

By Hal Boyle

NEW YORK (AP) — We have just survived one of those storms of doubt that shake family life to the roots.

It was a new crisis in an old belief—a crisis for which I was quite unprepared.

Without any warning my daughter, Tracy, who is nearly half-past five, looked up from the floor, and asked: "Daddy, do you think there's a Santa Claus?"

"Well, if there isn't," I replied absent-mindedly, "I don't know what the Democrats will do in 1960."

"Well, you know what I hear? I hear there ain't really any Santa Claus at all. It's just your father and mother all the time."

"Where did you hear that?"

"Never mind," said Tracy, leering up craftily. "But the word's going around. All the kids are talking about it."

There was a lengthy silence as my mind churned frantically. Long ago I had clipped out that fine old newspaper editorial, "yes, Virginia, there is a Santa Claus," foreseeing that some day it would come handy in just such an emergency. But I couldn't remember where I'd put it.

"Well, Daddy, what do you think about Santa Claus?" prodded Tracy. "Tell me truly."

"When I was a little boy we used to hang up our stocking every Christmas eve," I replied evasively. "And we always tried to get the biggest stocking we could find. We hoped Santa Claus would fill it up.

"The next morning, sure enough, it was full of nuts and candy—and right at the bottom of the sock was a great big orange, the best gift of all. People didn't have an orange every day then. What do you think of that?"

"It sounds to me like Santa Claus was pretty hard up in those days," said Tracy in one of the classic understatements of the 20th century.

But she dropped the subject.

The other night when I came home she climbed up next to me on the sofa. She held a pencil and paper.

"Daddy, there are an awful lot of liars in this neighborhood," she said, smoothing out her dress.

"I mean about Santa Claus. They been saying it's just your father and mother. But I went to the department store with Mommy this afternoon. And guess who I saw.

"Santa Claus himself! He's even fatter this year. He's even fatter than"—words failed her for a moment — "He's even fatter than you."

I mulled over this insult. Tracy handed me the paper and pencil

"I want you to help me write a letter to Santa Claus and tell him what I want him to bring me for Christmas."

"Why," I suggested, "don't you go back to the department store, climb up in old Santa's lap, give him a big kiss, and tell him yourself?"

"I'm scared to—after the things I've been saying about him the last two weeks," said Tracy. "I think we'd better deal with him by mail."

What Happened to the Laugh?

By George Sokolsky

Corey Ford, in an interesting piece in "The Saturday Evening Post," asks the very pertinent question: "Are you afraid to laugh?" The question is pertinent because people these days do not really laugh. They grin; they grimace; they snicker; they giggle; but they do not laugh. There is no uproar of laughter. There is no belly laugh.

True noise has become impolite unless it comes out of a machine. It used to be that the purpose of dining was to talk and talk was usually disputative, but never pompous. Nothing is funnier than a pompous person attempting to establish his personality like a heavy hammer banging away at an idea. It is pleasanter to listen to those new hi-fi machines which make so much noise or to a television Late Show. The pompous person realizes that his pomposity covers intellectual insecurity and he must keep the act going to be noticed.

However, that is not the only reason one does not laugh. It used to be that when one went to a public dinner, the speakers permitted themselves wit and humor and some understanding of human nature. But in these days of synthetics, with most speeches written by ghosts, the output is lethal. After-dinner speeches are a cause for the increased consumption of anti-gas powders and other nostrums which are advertised even on television without the burp showing.

The failure of vaudeville ended the real jokesters. Radio and television are afraid of dialects because sponsors are afraid of boycotts. Nevertheless a dialect is wonderful fun and a dialect story, well told, sub rosa perhaps by Harry Hershfield, is always worth a laugh.

There used to be humorous magazines and humorous columnists, as Corey Ford points out, but they are all gone unless one is willing to accept some of the extra-pontifical stuff as a form of humor. There used to be humorists like Mark Twain, for that matter, or Will Rogers.

Today, there are none although a few mean to be. Why has not the 20th century — the middle of it—produced a Mark Twain? There is so much to laugh about. There is not a single satirist in the English language.

Writing, like everything else, supplies a want and if there is no demand, there is no supply. The would-be humorist is writing "who dun-its" and the satirist, such as Westbrook Pegler might have been, is telling politicians how to be decent, a most futile task and utterly unappreciated.

Pegler's Spelvin stories might have made great literature if they were not confined to the size of a column and probably at times cut to fit. They need room for development and the spread of a virginal humor.

Harry Hershfield can regale his coterie of listeners with story after story but in a column they are too purified to be worth-while which is also true of Bennett Cerf who suffers from being an anthologist. Bennett Cerf has the makings of a humorist who will ultimately rebel against his tuxedo and do something that is remarkably good.

Man likes to laugh, just as a dog likes to bark. The sponsor in radio and television is really afraid that the customer might not like to be laughed at, which is undoubtedly true. As everybody is a customer, it is impossible to have any laughter, although Mollie Goldberg achieves both laughter and pathos in dialect and the dialect is authentic.

There is no laughter in Westerns which are now popular or in Quiz shows which were all the rage last year. Attempts to introduce the funny in Quiz shows got them into trouble, because it could only be accomplished by exaggerating the improbable, namely, by arranging it so that an obvious ignoramus seemed to be a know-it-all. But nobody laughed at that, any more than one laughed at Barnum's White Elephant.

The unusual may be startling, but it need not be funny. The clown could be funny, but the strip-teaser can only be surprising. She is never funny and only exciting to the moronic. Clowns are fast disappearing as burlesque is disappearing and the circus has become genteel.

This is an excellent subject for a good argument, particularly among those who still prefer to laugh at the foibles of the human race. After all, we are very funny, aren't we?

Heart Attack Prospect?

By Herman N. Bundesen, M.D.

You may ask: Am I going to have a heart attack?

I can't tell for sure, of course, but I do know the type of individual who is most apt to have one.

It is a man past the age of 45, probably somewhere in his early 50s.

He works in an office either as an executive or as an employee with some responsibilities.

He is ambitious, and because he is, he works hard, too hard. He drives himself almost constantly, and he sacrifices sleep and rest in favor of business and business-related social functions.

He worries at the office and he worries at home—about the office.

He is restless and often has a rather unhappy home life. Because he permits his business to dominate his life, his wife probably complains frequently. To him, it seems as though she is griping about something all the time.

The children, too, seem to be quarrelsome and sassy far too often.

In addition to all this, our friend may be overweight, probably by 15 pounds or maybe even more. As a rule, he likes to eat, drink and smoke.

Do you fit this description? If you do, it is time to sit down and take a good look backward—and a good look ahead.

I realize that there are millions of American men who fit the picture and that only a very small percentage will have heart attacks. But why not readjust your life, if you may be a candidate for a heart attack?

You don't have to give up everything for which you have been striving. Simply work less strenuously, leave your business and business worries at the office, give your home and family the attention they deserve, and get more rest and sleep.

Get your doctor's advice about your weight problem, and whether you can continue drinking and smoking at the same rate.

Don't put this off for any length of time. And if recently you have been feeling sort of tired and have noticed a sensation of pressure in your chest every now and then, see your doctor today.

The World Today

By James Marlow

WASHINGTON (AP) — The West is confronted with a savage change in Russian and Red Chinese tactics that looks like a return to Stalinism.

What is happening at Berlin and Quemoy may be only the first in many aggressive Communist moves which from now on could keep the Western Allies jumpy and off-balance. This would require a long-range Red plan.

Or it may be an effort by the Communist world to regain smoe fo the gruond it lost last summer when American troops moved into Lebanon and British troops went into Jordan.

Stalin's policy was to give the West no rest, to keep it off balance, test its willingness to resist, grab what he could. He pressured Turkey and Iran, and Greek Communist guerrillas tried to take over their country's government.

In all three cases the United States resisted and Stalin backed down. He made hay in Czechoslovakia which was too far inside the Iron Curtain to get direct help. The Communists took over from within.

In 1948 he tried to force the United States, Britain and France out of their occupation of West Berlin — which is 110 miles inside Red-run East Germany — by completely blockading any overland supplies for West Berlin.

The United States smashed this blockade with its airlift and Stalin gave up on that one. Then, with Russian help, the Korean Communists began their war The United States had to go to war to block them.

But this proved Stalin's worst blunder. His terror tactics drove the Western countries into active military alliance and stimulated the United States into an arms program that has never ceased.

It was the last thing the Soviets wanted. When Stalin died, the new Soviet boss, Nikita Khrushchev, not only denounced him as a murderer but called a halt to unconcealed terror tactics.

The Soviet Union continued to push, but now it was by persuasion, economic help, peaceful means. Yet the more Russia increased its military power, the more it blustered and became even more overbearing.

Then last summer, when the Lebanese government feared overthrow and called for American help, President Eisenhower sent in American troops. At the same time the British went into Jordan to save King Hussein's throne.

Suddenly Western troops were in the Middle East, right under Russia's nose. Russia growled but did nothing.

The world got a picture of a toughy, determined West and an ineffectual Russia. It was while the American and British troops were still in the Middle East that Khrushchev made a sudden, surprise visit to Peiping.

Almost at once the Red Chinese began their bombardment of Chiang Ka-ishek's Nationalist troops on the offshore island of Quemoy.

The United States was tough. It backed Chiang, refused to force him to retreat from Quemoy which was not actually necessary for defense of his main forces on Formosa. The reason given: It was a matter of principle to refuse to yield under fire.

While the shooting was still going on at Quemoy, Khrushchev made another aggressive thrust. This time he demanded the Western Allies get out of Berlin and leave it to the East German Reds.

This was a return to Stalin's pressure against Berlin, although it remains to be seen whether the Communists will try the blockade method again. The West has refused to budge.

No one can predict wheth Khrushchev's begining at Berlin will develop into crisis or whether, while the fire he lit at Berlin still burns, he'll push somewhere else.

California's Senator-Elect Likes To Quote Shakespeare

By BOB THOMAS
AP Motion Picture Writer

HOLLYWOOD (AP)—U.S. senators may be hearing quite a bit of Shakespeare in the next six years. California is sending to the Senate a man who can spout long from the so-called cow counties of northern California. Two weeks ago, he performed a major political feat by whipping one of the state's ace vote getters, Gov. Goodwin Knight, for the Senate.

But then, Engle is full of surprises, not the least of which is his knowledge of Shakespeare. Before he left for Washington, I asked him if his cow county constituents were surprised by it, too.

"I haven't made any hooparaw about knowing Shakespeare," he replied. "But I don't think they would be surprised or shocked. I've found some of the best-read people I've ever known up in that country. Up there, they've got a lot of time to read — and to think."

He added: "I've never made any pretensions about being an expert on Shakespeare. I think there are too many people in the world who pretend to be experts."

His interest in the plays goes back to his youth. "I first began studying Shakespare intently when I was in college," he said. "But I was reading it even before that. My father had the best edition of Shakespare I've ever seen. It was set in big, readable type, and I've been trying to find that edition ever since."

He has read all of the plays, some of them many times.

"I don't often work the quotations into speeches," he said. "The great value I find in Shakespeare is how it helps you in phrasing." Any of his opponents can vouch for that. He has a gift for the picturesque and stinging phrase.

The senator-elect carries a volume of the collected works with him during his extensive travels. His favorite plays?

He chose "Hamlet" among the tragedies and "Twelfth Night" of the comedies.

Coal, Grain Shipment Increasing on Lakes

CLEVELAND (AP) — Coal and grain shipments during October on the Great Lakes were up 333,000 net tons over the similar 1957 month. However, iron ore shipments dropped more than 2½ million tons below October of the last year. The Lake Carriers Assn. reported Tuesday coal and grain shipments last month totaled 7,673,571 net tons. Iron ore shipments were 8,480,635 gross tons.

Youthful Tomato Thrower Fined

A hearing was held in Pickaway County Juvenile Court this week concerning a 17-year-old student accused of throwing tomatoes. The incident related to the fatal accident of October in which Walnut Twp. football player David T. Smith was killed.

According to investigating sheriff's deputies, a car driven by Maxwell Dale White was struck in the windshield by tomatoes, thrown from the pick-up truck in which Smith was a passenger.

After being struck, White turned around and gave chase. The pick-up truck crashed as it was speeding from the scene of the tomato incident.

The youth accused of throwing the tomatoes was fined $50 and costs. The fine was suspended and he was placed on probation for one year.

His operator's license also was suspended for a year. The affidavit against the youth was filed by Deputy Sheriff Dwight Radcliff.

Rarity of the platinum group of metals is shown by the fact that only 30 tons are mined each year. In comparison, each year produces about 1,200 tons of gold and 7,000 tons of silver.

Youth Sentenced For Check Theft

A 15-year-old youth Tuesday afternoon appeared in Pickaway County Juvenile Court, accused of the theft of a check from the mail box belonging to Mrs. Anna Ritt, 150 W. Union St.

The boy was sentenced to the Boys' Industrial School, Lancaster. His sentence was suspended and he was placed on two years' probation.

Restitution was made for the amount of the check. The affidavit was signed by Deputy Sheriff Dwight Radcliff.

Our Anthem

BYRAM, Conn. (AP)— George L. B. Fraser, principal of the Byram school, assigned parents of fourth to eighth grade pupils the job of teaching their children the national anthem when he found that many children didn't even know the first stanza.

A school quiz revealed that only two pupils in the fourth grade and one sixth grader knew the words to the anthem.

Newspaper Circulation

ELGIN, Ill. (AP)— Despite television and radio, newspapers reach most citizens.

The local newspaper reports that the Audit Bureau of Circulation announced that an average 57 million copies of daily newspapers were sold every day last year.

Its survey shows that 84 per cent of U. S. families but at least one newspaper every day, and that 82 per cent of all persons 12 years and older read their paper.

"Daddy, there are an awful lot of liars in this neighborhood," she said, smoothing out her dress.

"I mean about Santa Claus. They been saying it's just your father and mother. But I went to the department store with Mommy this afternoon. And guess who I saw.

"Santa Claus himself! He's even fatter this year. He's even fatter than"—words failed her for a moment — "He's even fatter than you."

I mulled over this insult. Tracy handed me the paper and pencil

"I want you to help me write a letter to Santa Claus and tell him what I want him to bring me for Christmas."

"Why," I suggested, "don't you go back to the department store, climb up in old Santa's lap, give him a big kiss, and tell him yourself?"

"I'm scared to—after the things I've been saying about him the last two weeks," said Tracy. "I think we'd better deal with him by mail."

What Happened to the Laugh?

By George Sokolsky

Corey Ford, in an interesting piece in "The Saturday Evening Post," asks the very pertinent question: "Are you afraid to laugh?" The question is pertinent because people these days do not really laugh. They grin; they grimace; they snicker; they giggle; but they do not laugh. There is no uproar of laughter. There is no belly laugh.

True noise has become impolite unless it comes out of a machine. It used to be that the purpose of dining was to talk and talk was usually disputative, but never pompous. Nothing is funnier than a pompous person attempting to establish his personality like a heavy hammer banging away at an idea. It is pleasanter to listen to those new hi-fi machines which make so much noise or to a television Late Show. The pompous person realizes that his pomposity covers intellectual insecurity and he must keep the act going to be noticed.

However, that is not the only reason one does not laugh. It used to be that when one went to a public dinner, the speakers permitted themselves wit and humor and some understanding of human nature. But in these days of synthetics, with most speeches written by ghosts, the output is lethal. After-dinner speeches are a cause for the increased consumption of anti-gas powders and other nostrums which are advertised even on television without the burp showing.

The failure of vaudeville ended the real jokesters. Radio and television are afraid of dialects because sponsors are afraid of boycotts. Nevertheless a dialect is wonderful fun and a dialect story, well told, sub rosa perhaps by Harry Hershfield, is always worth a laugh.

There used to be humorous magazines and humorous columnists, as Corey Ford points out, but they are all gone unless one is willing to accept some of the extra-pontifical stuff as a form of humor. There used to be humorists like Mark Twain, for that matter, or Will Rogers.

Today, there are none although a few mean to be. Why has not the 20th century — the middle of it—produced a Mark Twain? There is so much to laugh about. There is not a single satirist in the English language.

Writing, like everything else, supplies a want and if there is no demand, there is no supply. The would-be humorist is writing "who dun-its" and the satirist, such as Westbrook Pegler might have been, is telling politicians how to be decent, a most futile task and utterly unappreciated.

Pegler's Spelvin stories might have made great literature if they were not confined to the size of a column and probably at times cut to fit. They need room for development and the spread of a virginal humor.

Harry Hershfield can regale his coterie of listeners with story after story but in a column they are too purified to be worth-while which is also true of Bennett Cerf who suffers from being an anthologist. Bennett Cerf has the makings of a humorist who will ultimately rebel against his tuxedo and do something that is remarkably good.

Man likes to laugh, just as a dog likes to bark. The sponsor in radio and television is really afraid that the customer might not like to be laughed at, which is undoubtedly true. As everybody is a customer, it is impossible to have any laughter, although Mollie Goldberg achieves both laughter and pathos in dialect and the dialect is authentic.

There is no laughter in Westerns which are now popular or in Quiz shows which were all the rage last year. Attempts to introduce the funny in Quiz shows got them into trouble, because it could only be accomplished by exaggerating the improbable, namely, by arranging it so that an obvious ignoramus seemed to be a know-it-all. But nobody laughed at that, any more than one laughed at Barnum's White Elephant.

The unusual may be startling, but it need not be funny. The clown could be funny, but the strip-teaser can only be surprising. She is never funny and only exciting to the moronic. Clowns are fast disappearing as burlesque is disappearing and the circus has become genteel.

This is an excellent subject for a good argument, particularly among those who still prefer to laugh at the foibles of the human race. After all, we are very funny, aren't we?

When the house dick returned, the manager inquired, "Find any of our towels in his suitcase?"

"No," said the detective, "but I found a chambermaid in his grip."

Heart Attack Prospect?

By Herman N. Bundesen, M.D.

You may ask: Am I going to have a heart attack?

I can't tell for sure, of course, but I do know the type of individual who is most apt to have one.

It is a man past the age of 45, probably somewhere in his early 50s.

He works in an office either as an executive or as an employee with some responsibilities.

He is ambitious, and because he is, he works hard, too hard. He drives himself almost constantly, and he sacrifices sleep and rest in favor of business and business-related social functions.

He worries at the office and he worries at home—about the office.

He is restless and often has a rather unhappy home life. Because he permits his business to dominate his life, his wife probably complains frequently. To him, it seems as though she is griping about something all the time.

The children, too, seem to be quarrelsome and sassy far too often.

In addition to all this, our friend may be overweight, probably by 15 pounds or maybe even more. As a rule, he likes to eat, drink and smoke.

Do you fit this description? If you do, it is time to sit down and take a good look backward—and a good look ahead.

I realize that there are millions of American men who fit the picture and that only a very small percentage will have heart attacks. But why not readjust your life, if you may be a candidate for a heart attack?

You don't have to give up everything for which you have been striving. Simply work less strenuously, leave your business and business worries at the office, give your home and family the attention they deserve, and get more rest and sleep.

Get your doctor's advice about your weight problem, and whether you can continue drinking and smoking at the same rate.

Don't put this off for any length of time. And if recently you have been feeling sort of tired and have noticed a sensation of pressure in your chest every now and then, see your doctor today.

The World Today

By James Marlow

WASHINGTON (AP) — The West is confronted with a savage change in Russian and Red Chinese tactics that looks like a return to Stalinism.

What is happening at Berlin and Quemoy may be only the first in many aggressive Communist moves which from now on could keep the Western Allies jumpy and off-balance. This would require a long-range Red plan.

Or it may be an effort by the Communist world to regain smoe fo the gruond it lost last summer when American troops moved into Lebanon and British troops went into Jordan.

Stalin's policy was to give the West no rest, to keep it off balance, test its willingness to resist, grab what he could. He pressured Turkey and Iran, and Greek Communist guerrillas tried to take over their country's government.

In all three cases the United States resisted and Stalin backed down. He made hay in Czechoslovakia which was too far inside the Iron Curtain to get direct help. The Communists took over from within.

In 1948 he tried to force the United States, Britain and France out of their occupation of West Berlin — which is 110 miles inside Red-run East Germany — by completely blockading any overland supplies for West Berlin.

The United States smashed this blockade with its airlift and Stalin gave up on that one. Then, with Russian help, the Korean Communists began their war The United States had to go to war to block them.

But this proved Stalin's worst blunder. His terror tactics drove the Western countries into active military alliance and stimulated the United States into an arms program that has never ceased.

It was the last thing the Soviets wanted. When Stalin died, the new Soviet boss, Nikita Khrushchev, not only denounced him as a murderer but called a halt to unconcealed terror tactics.

The Soviet Union continued to push, but now it was by persuasion, economic help, peaceful means. Yet the more Russia increased its military power, the more it blustered and became even more overbearing.

Then last summer, when the Lebanese government feared overthrow and called for American help, President Eisenhower sent in American troops. At the same time the British went into Jordan to save King Hussein's throne.

Suddenly Western troops were in the Middle East, right under Russia's nose. Russia growled but did nothing.

The world got a picture of a tough, determined West and an ineffectual Russia. It was while the American and British troops were still in the Middle East that Khrushchev made a sudden, surprise visit to Peiping.

Almost at once the Red Chinese began their bombardment of Chiang Ka-ishek's Nationalist troops on the offshore island of Quemoy.

The United States was tough. It backed Chiang, refused to force him to retreat from Quemoy which was not actually necessary for defense of his main forces on Formosa. The reason given: It was a matter of principle to refuse to yield under fire.

While the shooting was still going on at Quemoy, Khrushchev made another aggressive thrust. This time he demanded the Western Allies get out of Berlin and leave it to the East German Reds.

This was a return to Stalin's pressure against Berlin, although it remains to be seen whether the Communists will try the blockade method again. The West has refused to budge.

No one can predict wheth Khrushchev's begining at Berlin will develop into crisis or whether, while the fire he lit at Berlin still burns, he'll push somewhere else.

California's Senator-Elect Likes To Quote Shakespeare

By BOB THOMAS
AP Motion Picture Writer

HOLLYWOOD (AP)—U.S. senators may be hearing quite a bit of Shakespeare in the next six years. California is sending to the Senate a man who can spout long from the so-called cow counties of northern California. Two weeks ago, he performed a major political feat by whipping one of the state's ace vote getters, Gov. Goodwin Knight, for the Senate.

But then, Engle is full of surprises, not the least of which is his knowledge of Shakespeare. Before he left for Washington, I asked him if his cow county constituents were surprised by it, too.

"I haven't made any hooparaw about knowing Shakespeare," he replied. "But I don't think they would be surprised or shocked. I've found some of the best-read people I've ever known up in that country. Up there, they've got a lot of time to read — and to think."

He added: "I've never made any pretensions about being an expert on Shakespeare. I think there are too many people in the world who pretend to be experts."

His interest in the plays goes back to his youth. "I first began studying Shakespare intently when I was in college," he said. "But I was reading it even before that. My father had the best edition of Shakespare I've ever seen. It was set in big, readable type, and I've been trying to find that edition ever since."

He has read all of the plays, some of them many times.

"I don't often work the quotations into speeches," he said. "The great value I find in Shakespeare is how it helps you in phrasing." Any of his opponents can vouch for that. He has a gift for the picturesque and stinging phrase.

The senator-elect carries a volume of the collected works with him during his extensive travels. His favorite plays?

He chose "Hamlet" among the tragedies and "Twelfth Night" of the comedies.

Coal, Grain Shipment Increasing on Lakes

CLEVELAND (AP) — Coal and grain shipments during October on the Great Lakes were up 333,000 net tons over the similar 1957 month. However, iron ore shipments dropped more than 2½ million tons below October of the last year. The Lake Carriers Assn. reported Tuesday coal and grain shipments last month totaled 7,673,571 net tons. Iron ore shipments were 8,480,635 gross tons.

Youthful Tomato Thrower Fined

A hearing was held in Pickaway County Juvenile Court this week concerning a 17-year-old student accused of throwing tomatoes. The incident related to the fatal accident of October in which Walnut Twp. football player David T. Smith was killed.

According to investigating sheriff's deputies, a car driven by Maxwell Dale White was struck in the windshield by tomatoes, thrown from the pick-up truck in which Smith was a passenger.

After being struck, White turned around and gave chase. The pick-up truck crashed as it was speeding from the scene of the tomato incident.

The youth accused of throwing the tomatoes was fined $50 and costs. The fine was suspended and he was placed on probation for one year.

His operator's license also was suspended for a year. The affidavit against the youth was filed by Deputy Sheriff Dwight Radcliff.

Rarity of the platinum group of metals is shown by the fact that only 30 tons are mined each year. In comparison, each year produces about 1,200 tons of gold and 7,000 tons of silver.

Youth Sentenced For Check Theft

A 15-year-old youth Tuesday afternoon appeared in Pickaway County Juvenile Court, accused of the theft of a check from the mail box belonging to Mrs. Anna Ritt, 150 W. Union St.

The boy was sentenced to the Boys' Industrial School, Lancaster. His sentence was suspended and he was placed on two years' probation.

Restitution was made for the amount of the check. The affidavit was signed by Deputy Sheriff Dwight Radcliff.

Our Anthem

BYRAM, Conn. (AP)— George L. B. Fraser, principal of the Byram school, assigned parents of fourth to eighth grade pupils the job of teaching their children the national anthem when he found that many children didn't even know the first stanza.

A school quiz revealed that only two pupils in the fourth grade and one sixth grader knew the words to the anthem.

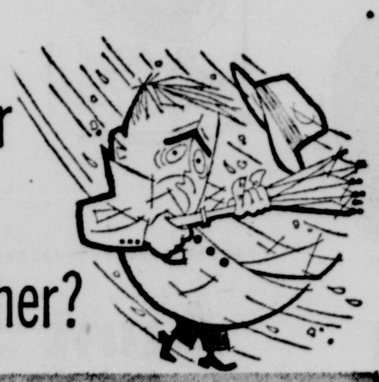

Newspaper Circulation

ELGIN, Ill. (AP)— Despite television and radio, newspapers reach most citizens.

The local newspaper reports that the Audit Bureau of Circulation announced that an average 57 million copies of daily newspapers were sold every day last year.

Its survey shows that 84 per cent of U. S. families but at least one newspaper every day, and that 82 per cent of all persons 12 years and older read their paper.

Foreign Ship Dockings Increase at Cleveland

CLEVELAND (AP) — Foreign ships using Cleveland's port facilities increased 30 per cent this year and customs officials say even more overseas shipping can be expected in 1959. The St. Lawrence Seaway was credited for the increase. Albina Cermack, customs collector, said Wednesday 390 foreign ships visited Cleveland during 1958 compared with 299 in 1957.

Jailed Amish Is Freed To Teach School

CLEVELAND (AP)—Because of a plea that Ashland County Amish youth Andrew E. Shrock is needed to teach school, Shrock will be released from federal prison camp at Allenwood, Pa., Dec. 18 after serving three months of a two-year sentence for draft evasion.

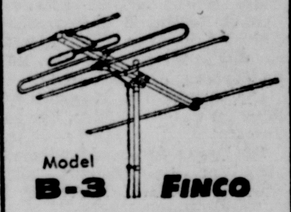

U. S. District Court Judge Paul C. Weick Wednesday signed the order commuting 21 months of Shrock's sentence.

The youth was sentenced Sept. 19 after he refused to do civilian hospital work in lieu of military service.

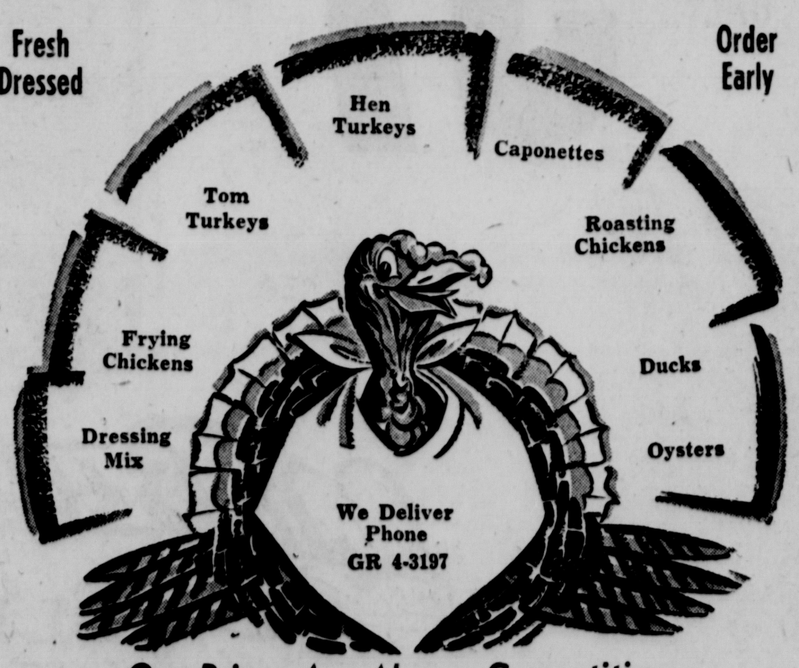

Amish elders pleaded in federal court probation department that Shrock, son of an Amish bishop, is needed as a school teacher. They argued that he had served enough time.

Judge Weick said Shrock "would have been eligible for parole in another five months anyway and further imprisonment would not have changed his attitude toward draft service."

Jailed Amish Is Freed To Teach School

CLEVELAND (AP)—Because of a plea that Ashland County Amish youth Andrew E. Shrock is needed to teach school, Shrock will be released from federal prison camp at Allenwood, Pa., Dec. 18 after serving three months of a two-year sentence for draft evasion.

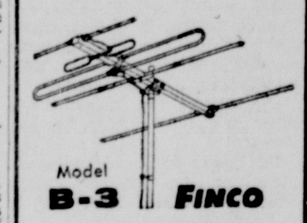

U. S. District Court Judge Paul C. Weick Wednesday signed the order commuting 21 months of Shrock's sentence.

The youth was sentenced Sept. 19 after he refused to do civilian hospital work in lieu of military service.

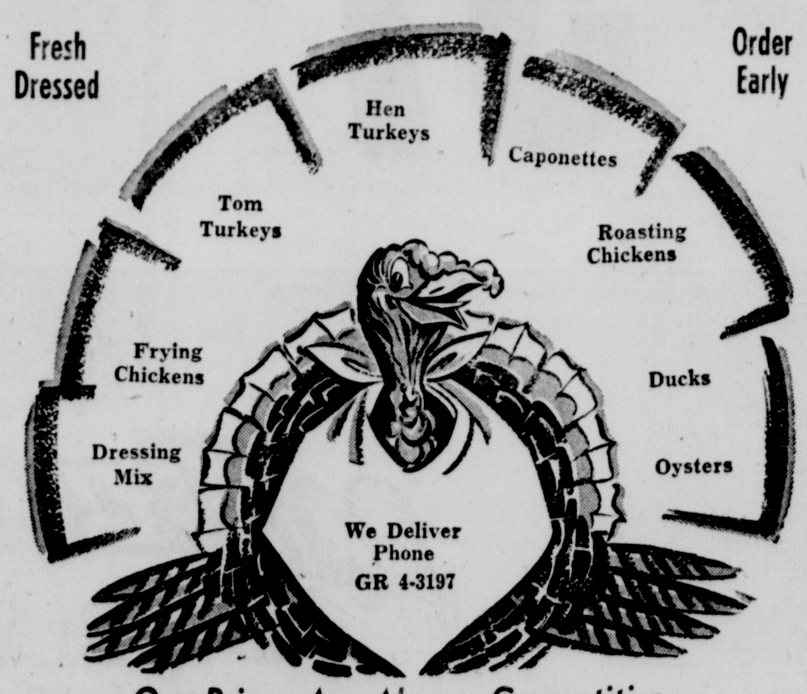

Amish elders pleaded in federal court probation department that Shrock, son of an Amish bishop, is needed as a school teacher. They argued that he had served enough time.

Judge Weick said Shrock "would have been eligible for parole in another five months anyway and further imprisonment would not have changed his attitude toward draft service."

Dixie Coed Holds Title To Moon

GUNTOWN, Miss. (AP)—Every time they launch a missile into space, pretty Charlene Majers worries about her property.

She owns the moon. Yes, sir.

At least, the U.S. Reclamation Bureau recognizes her legal claim.

On Oct. 14, 1950 Mrs. Katie Hopkins Majers filed her daughter's notice at Tupelo, Miss., after the proper legal investigation.

It states Miss Majers' position with admirable clarity:

"I, Charlene Majers, am hereby placing claim on planet moon and shall defend said title against any persons or nations that might attack."

The acquisition fulfiled Charlene's childhood ambition.

She isn't the only planet owner in the family. Her cousin, Mitchell Herring, now serving in the Marine Corps, owns the planet Mars. Whether the corps is cognizant of this is not known.

Charlene is a geology major at Mississippi State University at Starkville and looks forward to the day she may visit her heavenly domain.

However, she has not yet figured exactly how she would defend the moon against attackers or poachers.

No matter. For the legal time being, her claim stands staunch. A fellow in Knoxville, Ten., who tried to add the moon to his possessions a couple years ago found that Charlene had got there before him.

The Reclamation Bureau turned his application back.

The oldest church in Illinois was built in 1799 at the village of Cahokia, population 465. It is Church of the Holy Family.

Farmer Wonders About Hot Water Well on His Place

MONMOUTH, Ill. (AP)—Farmer Chalmer Lovdahl has a hot well on his farm and he's in a little fever about it.

The 30-foot well, Lovdahl said, had furnished sparkling and cold water for his household for 36 years until last August.

"The water was far colder and better for drinking than water from a nearby well—125 feet deep—that I use for my stock," Lovdahl said.

But the water in the smaller well began warming up last August. It became progressively warmer and recently it leveled off at 101 degrees, where it has remained.

Lovdahl called in experts from the University of Illinois and the State Health Department to explain the phenomenon. No satisfactory explanations were given.

'TENSHUN' — Sgt. Ralph Sherman of the United States Marine Corps just can't keep his eyes from straying as he is photographed with Sue Boucher, 18, of Joliet, Ill., after she was crowned "Miss Chicagoland Marine Recruiter, 1959."

Reporter Finds 'Missing' Man

TOLEDO, Ohio (AP)—Juvenile Court Director L. Wallace Hoffman asked the Toledo Blade Tuesday to help locate Al W. Kish, "missing," Hoffman said, for nearly a year.

The court wanted to pay Kish $350 for the loss he suffered when juveniles burglarized a concession stand he operates. Wallace said all efforts, including a talk with his lawyer, had failed to turn up a trace of Kish.

Minutes later a reporter located Kish by simply looking up his name in the telephone book and calling his house.

Embarrassed court officials found their records showed the man's name as Kisch instead of Kish and his address as 2603 Berkeley instead of 3603 Berkeley.

Only about one-third of the residents of Washington, D. C., were born in the city.

Ohio To Claim Muskingum Dams

McCONNELSVILLE (AP) — Ohio will take title today to a string of 11 locks and dams in the Muskingum River.

Ceremonies scheduled here at 3:30 p.m. will climax a years-long fight of state officials and prevent destruction of the historic Muskingum Valley residents to federally constructed waterway system.

Toledo's 'Col. Rye' Dies at Age 101

TOLEDO, Ohio (AP)—Rier M. Smith, a retired railroad engineer who loved sports, politics and big black cigars in his late years, died today at 101.

Smith, dubbed "Colonel Rye" by his friends, often told visitors of being in the grandstand the day Babe Ruth pointed to the spot where he would drive his next home run, and did it.

He could recall the inauguration of President Ulysses S. Grant. His favorite presidents were Woodrow Wilson and "that young fellow in the White House now, Ike Eisenhower."

Deer Meat Is Costly For Revenna Hunters

RAVENNA, Ohio (AP) — Two hunters from nearby Mantua paid a high price for deer meat Wednesday when they appeared in Municipal Court charged with illegal possession of deer, Jay Singleton, 35, and Larry Dean, 32, were fined $150 and costs each for the 150-pound buck they shot and killed with a rifle outside the Ravena Arsenal. There is open season on deer in Ohio, but only when hunting with bow and arrows

Toledo's 'Col. Rye' Dies at Age 101

TOLEDO, Ohio (AP)—Rier M. Smith, a retired railroad engineer who loved sports, politics and big black cigars in his late years, died today at 101.

Smith, dubbed "Colonel Rye" by his friends, often told visitors of being in the grandstand the day Babe Ruth pointed to the spot where he would drive his next home run, and did it.

He could recall the inauguration of President Ulysses S. Grant. His favorite presidents were Woodrow Wilson and "that young fellow in the White House now, Ike Eisenhower."

Deer Meat Is Costly For Revenna Hunters

RAVENNA, Ohio (AP) — Two hunters from nearby Mantua paid a high price for deer meat Wednesday when they appeared in Municipal Court charged with illegal possession of deer, Jay Singleton, 35, and Larry Dean, 32, were fined $150 and costs each for the 150-pound buck they shot and killed with a rifle outside the Ravena Arsenal. There is open season on deer in Ohio, but only when hunting with bow and arrows

You Can Soon Copter Your Way To Work

GLENDALE, Calif. (AP) — Within a year and a half you may be able to hop into your own helicopter and whirl off to work.

The president of a helicopter firm today set that target date for marketing a two-place helicopter coupe for civilians. He said the revolutionary craft would sell for about $5,000.

The tiny copter, called the Gyro-Jet will have fold-up rotors and can be driven on the ground from home or office to heliports, Gilbert Magill said in an interview. He is president of Rotor-Craft Corp. of Glendale.

In the air the all-weather, enclosed Gyro-Jet will have a top speed of 100 miles an hour and can cruise for 2½ hours. Highway speed will be 60 m.p.h.

"First prototypes of the craft will be in the air within six months," Magill said. "We have lined up 125 distributors and have orders for 6,500 machines the first year."

The factory has yet to complete its first prototype, however.

Rotor-Craft began developing small helicopters for the Navy eight years ago. The first was the pinwheel, designed to be strapped on a service man's back to lift him aloft for observation. The Gyro-Jet resulted from this research.

"Obtaining a license to fly the Gyro-Jet will be about as simple as getting a driver's license," Magill said. "Anyone who can drive a car can fly and drive the Gyro-Jet."

Jaycee Project In Magazine

A pictorial article concerning the Circleville Junior Chamber of Commerce appeared in the November edition of the official United States Jaycee magazine, "Future".

The magazine, which is published in Tulsa, Okla., featured the erection of the Jaycee tennis courts in use at Ted Lewis Park.

This Jaycee project for the benefit of the community was built with the combined efforts of George W. Van Camp and Sturm and Dillard Co., under the supervision and sponsorship of the local Jaycees. The estimated cost was set at $3,000.

Humane Society Checking on Cat Surgery in Biology Class

HUTCHINSON, Kan. (AP)—"I went home shaking like a leaf. I'll never go back."

The words came from 15-year-old Anita Trotter, who walked out of a private high school because of a biology class experiment in which a kitten was put to sleep with ether and cut open.

"I couldn't watch, it made me sick," the sophomore at Central Christian High School said. "The cat kept screaming while the teacher made the incisions."

That was Friday. The girl remained out of school today.

Anita called Guy Miller of the Humane Welfare Assn. County Atty. John Alden said he also planned to look into it and would decide what action he would take.

Central Christian is an interdenominational private junior high school with an enrollment of 100.

The teacher, 35-year-old Irvin Jackson, a University of Richmond graduate, said the object was "to acquaint students with medical procedure and the tools of biology work." He said the experiment provided for killing the animal during the course of the project, and it was never in pain.

"We gave the animal ether before and during the experiment," he said. "The brain was deactivated, and the outcries were from muscular contractions."

A. W. Miller, assistant superintendent of the Hutchinson public schools, said dietary experiments are performed on lower forms of life in biology classes at the public schools, but that vivisection is not to his knowledge practiced.

"We've got to develop scientists," Jackson said. "In Russia they do these things in the grammar schools."

Drum Corps Disbands

The Circleville American Legion Drum and Bugle Corps has disbanded again, it was announced today by Legion officials.

Past and present Corps members are asked to turn in their uniforms and equipment at Memorial Hall.

Legion Commander James Price stated that an attempt to reorganize the Corps will be made in January, 1959.

Civil Service Rule Is Given by Saxbe

COLUMBUS, Ohio (AP)—A civil service employe may not even be a school board candidate without quitting his job,

This was the ruling today by Atty. Gen. William Saxbe to a question raised by Prosecutor Joseph B. Yanity Jr. of Athens County. The case in point was that of an Athens State Hospital barber who was considering running for the school board.

Saxbe pointed out state law prohibits any political activity by civil service employes.

Rural women in Turkey, those who worked in the fields, once wore veils only on holidays and similar special occasions.

Moscow Radio Carries American Musicals

MOSCOW (AP) — Moscow radio served up a surprise today for Western listeners to its home broadcasts. The radio orhcestra played the complete overture from "Oklahoma." Then two songs from the American musical, "I Can't Say 'No'," "Everything's Up to Date in Kansas City", were sung in a Russian translation.

Shock Resistant

RICHMOND, Va. (AP)—A cinderblock lay in the drive leading to the loading platform of a brick company here. For six months heavily laden trucks pounded it. Finally it broke open and William Haden, an employe, found a watch inside. He wound it. It ran. He took it to a jeweler who sent it to the manufacturer. Back came two watches—one for Haden and one for the owner of the shock resistant watch—if he can be found.

Elsea, Greenlee Named To All-SCOL Selection

Circleville High School guard Asa Elsea and defensive end Dick Greenlee were named to the All-South Central Ohio League football selection during a league meeting last night at the local school.

Elsea gained double honors by being named to both the offensive and defensive first string units. Greenlee was picked on the defensive squad.

Tackle Larry King of Hillsboro and end-halfback Sam Grooms of Greenfield were the only other gridders to be selected on both teams. Balloting was conducted by grid coaches of the SCOL.

Circleville placed several on the honorable mention list. They were ends Jim Woods and Tom Greeno, guard Roger Wolfe, center Brent Bell, halfback Walt Arledge, middle guard Marion Morrison, inside linebacker Harold Arledge and defensive halfbacks Larry Hannahs and Ray Phifer.

* * *

WASHINGTON C. H. dominated the offensive mythical selection with three players. They were end Jack Wilson, tackle Jack Crabtree and halfback Ronnie Shackelford.

Greenfield, Hillsboro and Wilmington each placed two on the offensive list. From Greenfield it was end Sam Grooms and guard Wendell George, from Hillsboro it was tackle King and quarterback Dave Mallory and Wilmington placed center Darrell Bias and halfback Mickey Vanscoy.

John Yinger, Franklin Height's fine fullback, gained the honors at that position.

Greenfield led the pack on the defensive unit with four gridders. Representing McClain were tackle Jerry Lemons, inside linebacker Gary Grim, corner linebacker Jerry Maxie and defensive halfback Grooms.

Franklin Heights placed two defensive men, end Wes Toops and corner linebacker Bill Biggers. Others named were King of Hillsboro at end, middle guard John Deboard of Wilmington and halfback Chuck Hire of Washington C. H.

Elsea was a unanimous choice on both selections and Greenlee was a top vote getter for his defensive end position. Elsea was commended for his rugged line play and exceptional ability as a placekicker and punter. Greenlee was singled out for his determined play as a flanker, especially in the Washington C. H. game.

* * *

MOST OF the coaches present agreed that CHS halfback Walt Arledge would have been considered for first team laurels had it not been for the injuries which forced him to the sidelines most of the season.

Here are the selections:

OFFENSE

Ends—Sam Grooms (G), 190, Sr.; Jack Wilson (WCH), 150, Sr.; guards — Asa Elsea (C), 173, Sr.; Wendell George (G), 180, Sr.; tackles — Jack Crabtree (WCH), 196, Sr.; Larry King (H), 180, Sr.; center—Darrell Bias (W), 170, Jr.; quarterback — Dave Mallory (H), 180, Sr.; fullback—John Yinger (FH), 155, Sr.; halfbacks—Mickey Vanscoy (W), 160, Jr.; Ron Shackelford (WCH), 150, Sop.

DEFENSE

Heisman Trophy Seldom Given To Players on Forward Wall

By WALTER L. JOHNS
Central Press Sports Editor

Before us today we have the Heisman Memorial Trophy award ballot, the 24th in the series of annual awards which were started in 1935.

Some 1,300 qualified electors are filling out their ballots right now for submission to the Downtown Athletic club of New York, which started the award which was named in 1936 in honor of John W. Heisman, then director of athletcis at the Downtown Athletic club.

While the announcement of the winner won't come until early December, football's most coveted award undoubtedly will go to a back, which has been the procedure over the previous 23 years.

Of all the awards made, only twice has it gone to other players than backs, and these two went to end Larry Kelley of Yale and Leon Hart of Notre Dame.

It's a difficult task, of course, to single out an outstanding lineman when backfield men get all the attention and publicity because they carry the ball.

It will be a difficult task again this year to single out a lineman for the award for we're guessing right now that Pete Dawkins of Army, a fine all-around All-American, probably is the favorite to win the honor. And a fine choice he will be, too.

We wonder whether the Heisman award people might not consider having two such awards, so that a back and a lineman may be honored. The Football Writers have such an award and baseball has come up with the Most Valuable pitcher as well as the Most Valuable player.

The Heisman award is the finest there is in football and the winner is selected by a national vote. It is not our thought to change such a procedure but only to add the supplementary award for the outstanding workhorse who gets All-American mention but seldom gets a chance to receive any of the several national awards.

Heisman award winners have gone on into pro football and have proven their all-around excellence. Included in the list of winners have been such famed pro performers as Davey O'Brien, Doak Walker, Leon Hart, Alan Ameche, and John Crow. Many others also played pro ball and have done well.

The selection always have been first-rate. We'd just like to see a lineman win it sometime.

Kent State To Host Basketball Meet

KENT, Ohio (AP)—Tennessee of the Southeastern Conference takes on Michigan of the Big Ten in the Dec. 5 opener of Kent State University's first anual two-day Midwestern Invitational Basketball Tournament. Kent State will play Wyoming, defending champion in the Skyline Conference. The winners and losers of the Dec. 5 games will be matched the following day.

Oosterbaan Likes Old Rival Woody

ANN ARBOR, Mich. (AP) — Woody Hayes, Ohio State's controversial and feuding coach, has a friend after all in the coaching fraternity.

His friend is Michigan's retiring Bennie Oosterbaan. The two coaches, complete opposites in personality, will renew their friendship Saturday. Oosterbaan makes his football farewell by coaching against Hayes' eleven.

The bombastic Hayes has been fussing with opposing coaches all season. He was the center of a stormy affair early in the campaign when he issued a blast at Big Ten officiating.

Purdue's Jack Mollenkopf publicly berated Hayes. Hayes didn't shake hands at the conclusion of the Boilermakers' tie with Ohio State two weeks ago.

"Woody and I always got along well," said the mild - manered Oosterbaan. "He's an enthusiastic rascal.

"I admire him for his outspokenness and coaching ability. He says his Ohio team is the best in the country.

"Those teams of his always have high morale and are well coached. I'd much prefer to have people say about me 'He's a helluva winning coach' than a nice guy."

Oosterbaan will be happy to rid himself of the torment and pressure of coaching.

"Outwardly I may seem placid," he said. "But inside, I'm enthusiastic."

The strain on Oosterbaan is evident during a game. He makes fretful grimaces and nervously paces the sidelines, his arms folded behind him beneath his coat.

"I'll be glad to be out of it," he said. "Obviously there's much more to coaching when you're losing like we have this season than when you're wining.

"But I'll always have a fast-beating heart when Michigan plays."

Lowly Cincinnati Defeats Celtics

By THE ASSOCIATED PRESS

The Boston Celtics, overwhelming choices to repeat as Eastern Division champs in the National Basketball Assn., are having their troubles.

Although Bob Cousy, Bill Sharman and Bill Russell — Boston's big three — had 73 points among them, the Celtics dropped a 119-103 verdict to the Cincinnati Royals Wednesday night. It was the only game on the NBA slate.

Jack Twyman, one of the few veterans on the Cincinnati squad, scored 45 points as the Royals came from behind and put an end to their losing streak at seven games. They hadn't won in 3½ weeks.

Eagles Admit Their Play Must Improve

PHILADELPHIA (AP)— Coach Buck Shaw says his Philadelphia Eagles will "have to play better than we've played so far.

"We have to contain Jimmy Brown and stop the passing of Milt Plum and Jim Ninowski. It won't be easy, but we can do it."

The Eagles can upset the Cleveland Browns Sunday at Cleveland, Shaw said, "if everyone stays awake and we don't make the usual silly mistakes."

The big problem for the Eagles will be to improve their tackling, the coach declared.

"We've been tackling off balance, pawing at the runner. To stop a runer like Brown you stop a wrap your arms around him, hit him solid. We've been guilty of shoddy tackling and that's what we're going to work on for Sunday."

Despite his mention of Plum and Ninowski, Shaw did not seem too much worried about Cleveland's passing game.

"When I was in this league before with San Francisco, and we got ready for the Browns, we had to concentrate on stopping their passing game. They always passed more than they ran. Now they run more than they pass," he remarked.

Roundtowners Capture OSU Pigskin Title

The Roundtowners, a team composed chiefly of ex-Circleville High School football stars, have been crowned the 1958 Independent Intramural Touch Football Champions at Ohio State University.

The Roundtowners swept through nine games undefeated to earn the championship against 47 other competing elevens.

Roger Bennington, a senior in physical education at OSU, coached the Roundtowners to the title. The Circleville spirited eleven featured a strong defense, which held their opponents scoreless in seven of the nine games played.

The offense also came in for its share of praise as it twice scored more than 25 points in a contest and was held to one touchdown in only one game.

* * *

SPEARHEADING the offense was the passing of Ronald Bennington, ex-high school and Kenyon College quarterback, and Dick Rhoads, whose previous passing experience included a year of quarterbacking for the Oakland Naval Hospital Team, Oakland, Calif.

The offensive running attack was sparkplugged by Roger Magill, former local high school back. The line play was led by three local youths who excelled in high school play.

They were Robert Lamb, Ronald Stucker and Charles Waple. Mike Hosler, ex-high school quarterback star, held down right end, while Roger Bennington operated out of the other end slot.

Winship Story Jr. saw considerable action in the line. Two boys from Youngstown, one from Cambridge and a youth from Canton, completed the Roundtowner squad.

St. Peters Tops Kingston, 42-24

Chillicothe St. Peters last night handed the Kingston junior high basketball team its first defeat of the season with a 42-24 shellacking.

St. Peters jumped to a 13-6 first quarter lead and was on top, 28-13 at halftime. The Redskins, handicapped by the loss of stellar center Albert, out with pneumonia, fell further behind in the third quarter, 35-18.

Chillicothe controlled the bankboards for its decisive victory. Top scorers for the evening were Hess and Wyman with 11 each for Chillicothe and Carper with eight for Kingston.

The Redskins next game will be with Clarksburg on the Kingston floor.

Cage Loop Slates 3 Tilts Tonight

Circleville Independent Basketball will feature three games tonight at the fairgrounds coliseum.

Carded for action are Yingling Hybrids vs. Kirks Furniture; River Oil vs. Ashville; and Williamsport vs. Veterans of Foreign Wars.

The first game will start at about 7 p. m.

Farrell To Pilot Buffalo Bisons

BUFFALO, N. Y. (AP)—Kerby Farrell, former field manager for the Cleveland Indians, was named today to manage the International Baseball League's Buffalo Bisons next season.

Farrell, who is in Venezuela where he is managing the Oriente club in the winter league, replaces Phil Cavarretta. The Bisons finished in the cellar last season.

Farrell, 45, started as a manager in Erie, Pa., in 1941 in the Class C Middle Atlantic League. He finished sixth with Cleveland in 1957, and last year managed the Miami Marlins of the International League.

Amanda To Floor Small Cage Team

Amanda High School will have one returning letterman for its coming basketball team and will be small by present day standards.

Amanda, known as the "Aces", will be coached by Don LaBonte, in his first year at the helm. Returning varsity starter is Dick "Skip" Young, a 6-footer who spearheaded the Aces attack last year.

The varsity candidates, who will first see action Saturday against a strong Darby aggregation are juniors Skip Young; Jim "Cecil" Miller, 6'; Danny Waters, 5-9; Roger Smith, 5-11; Jack Willis, 6'; Melvin Ruff, 5-6, and Eddie Julian, 5-8.

Seniors are Ron Bresler, 5-7; and Dorwin Hill, 5-7. Sophomores breaking into varsity ranks are Lynn "Barney" Young, 6'; Roger "Gus" Garrett, 5-11; Dennis "Earl" Bates, 6'; Bill Brown, 5-9; and Terry Williams, 5-11.

* * *

THE RESERVE candidates consist of two juniors, three sophomores and 10 freshmen. The juniors are Larry Soliday and Stuart Roberts. Sophomores are Alan Henderson, Helmut Klemm and Roger Ruble.

Freshmen out for the first time are Darrell Young, Gary Young, Larry Beougher, Kenny Hampshire, Alan Butterbaugh, Don Labonte, Gerald Stoughton, Don Julian, Benny Hunter and Jim McKenzie.

Last year the Aces registered a 10-10 slate. They tallied 1,035 points during the regular season for a 57.5 average per game.

Amanda allowed its opponents 1,044 points for an average of 58 points a game. Skip Young was eighth in Pickaway County area scoring with a total of 217 points in 18 games for a 12.1 average.

Elsea, Greenlee Named To All-SCOL Selection

Circleville High School guard Asa Elsea and defensive end Dick Greenlee were named to the All-South Central Ohio League football selection during a league meeting last night at the local school.

Elsea gained double honors by being named to both the offensive and defensive first string units. Greenlee was picked on the defensive squad.

Tackle Larry King of Hillsboro and end-halfback Sam Grooms of Greenfield were the only other gridders to be selected on both teams. Balloting was conducted by grid coaches of the SCOL.

Circleville placed several on the honorable mention list. They were ends Jim Woods and Tom Greeno, guard Roger Wolfe, center Brent Bell, halfback Walt Arledge, middle guard Marion Morrison, inside linebacker Harold Arledge and defensive halfbacks Larry Hannahs and Ray Phifer.

* * *

WASHINGTON C. H. dominated the offensive mythical selection with three players. They were end Jack Wilson, tackle Jack Crabtree and halfback Ronnie Shackelford.

Greenfield, Hillsboro and Wilmington each placed two on the offensive list. From Greenfield it was end Sam Grooms and guard Wendell George, from Hillsboro it was tackle King and quarterback Dave Mallory and Wilmington placed center Darrell Bias and halfback Mickey Vanscoy.

John Yinger, Franklin Height's fine fullback, gained the honors at that position.

Greenfield led the pack on the defensive unit with four gridders. Representing McClain were tackle Jerry Lemons, inside linebacker Gary Grim, corner linebacker Jerry Maxie and defensive halfback Grooms.

Franklin Heights placed two defensive men, end Wes Toops and corner linebacker Bill Biggers. Others named were King of Hillsboro at end, middle guard John Deboard of Wilmington and halfback Chuck Hire of Washington C. H.

Elsea was a unanimous choice on both selections and Greenlee was a top vote getter for his defensive end position. Elsea was commended for his rugged line play and exceptional ability as a placekicker and punter. Greenlee was singled out for his determined play as a flanker, especially in the Washington C. H. game.

* * *

MOST OF the coaches present agreed that CHS halfback Walt Arledge would have been considered for first team laurels had it not been for the injuries which forced him to the sidelines most of the season.

Here are the selections;

Heisman Trophy Seldom Given To Players on Forward Wall

By WALTER L. JOHNS
Central Press Sports Editor

Before us today we have the Heisman Memorial Trophy award ballot, the 24th in the series of annual awards which were started in 1935.

Some 1,300 qualified electors are filling out their ballots right now for submission to the Downtown Athletic club of New York, which started the award which was named in 1936 in honor of John W. Heisman, then director of athletcis at the Downtown Athletic club.

While the announcement of the winner won't come until early December, football's most coveted award undoubtedly will go to a back, which has been the procedure over the previous 23 years.

Of all the awards made, only twice has it gone to other players than backs, and these two went to end Larry Kelley of Yale and Leon Hart of Notre Dame.

It's a difficult task, of course, to single out an outstanding lineman when backfield men get all the attention and publicity because they carry the ball.

It will be a difficult task again this year to single out a lineman for the award for we're guessing right now that Pete Dawkins of Army, a fine all-around All-American, probably is the favorite to win the honor. And a fine choice he will be, too.

We wonder whether the Heisman award people might not consider having two such awards, so that a back and a lineman may be honored. The Football Writers have such an award and baseball has come up with the Most Valuable pitcher as well as the Most Valuable player.

The Heisman award is the finest there is in football and the winner is selected by a national vote. It is not our thought to change such a procedure but only to add the supplementary award for the outstanding workhorse who gets All-American mention but seldom gets a chance to receive any of the several national awards.

Heisman award winners have gone on into pro football and have proven their all-around excellence. Included in the list of winners have been such famed pro performers as Davey O'Brien, Doak Walker, Leon Hart, Alan Ameche, and John Crow. Many others also played pro ball and have done well.

The selection always have been first-rate. We'd just like to see a lineman win it sometime.

His friend is Michigan's retiring Bennie Oosterbaan. The two coaches, complete opposites in personality, will renew their friendship Saturday. Oosterbaan makes his football farewell by coaching against Hayes' eleven.

The bombastic Hayes has been fussing with opposing coaches all season. He was the center of a stormy affair early in the campaign when he issued a blast at Big Ten officiating.

Purdue's Jack Mollenkopf publicly berated Hayes. Hayes didn't shake hands at the conclusion of the Boilermakers' tie with Ohio State two weeks ago.

"Woody and I always got along well," said the mild - manered Oosterbaan. "He's an enthusiastic rascal.

"I admire him for his outspokenness and coaching ability. He says his Ohio team is the best in the country.

"Those teams of his always have high morale and are well coached. I'd much prefer to have people say about me 'He's a helluva winning coach' than a nice guy."

Oosterbaan will be happy to rid himself of the torment and pressure of coaching.

"Outwardly I may seem placid," he said. "But inside, I'm enthusiastic."

The strain on Oosterbaan is evident during a game. He makes fretful grimaces and nervously paces the sidelines, his arms folded behind him beneath his coat.

"I'll be glad to be out of it," he said. "Obviously there's much more to coaching when you're losing like we have this season than when you're wining.

"But I'll always have a fast-beating heart when Michigan plays."

Lowly Cincinnati Defeats Celtics

By THE ASSOCIATED PRESS

The Boston Celtics, overwhelming choices to repeat as Eastern Division champs in the National Basketball Assn., are having their troubles.

Although Bob Cousy, Bill Sharman and Bill Russell — Boston's big three — had 73 points among them, the Celtics dropped a 119-103 verdict to the Cincinnati Royals Wednesday night. It was the only game on the NBA slate.

Jack Twyman, one of the few veterans on the Cincinnati squad, scored 45 points as the Royals came from behind and put an end to their losing streak at seven games. They hadn't won in 3½ weeks.

Eagles Admit Their Play Must Improve

PHILADELPHIA (AP)— Coach Buck Shaw says his Philadelphia Eagles will "have to play better than we've played so far.

"We have to contain Jimmy Brown and stop the passing of Milt Plum and Jim Ninowski. It won't be easy, but we can do it."

The Eagles can upset the Cleveland Browns Sunday at Cleveland, Shaw said, "if everyone stays awake and we don't make the usual silly mistakes."

The big problem for the Eagles will be to improve their tackling, the coach declared.

"We've been tackling off balance, pawing at the runner. To stop a runer like Brown you stop a wrap your arms around him, hit him solid. We've been guilty of shoddy tackling and that's what we're going to work on for Sunday."

Despite his mention of Plum and Ninowski, Shaw did not seem too much worried about Cleveland's passing game.

"When I was in this league before with San Francisco, and we got ready for the Browns, we had to concentrate on stopping their passing game. They always passed more than they ran. Now they run more than they pass," he remarked.

Roundtowners Capture OSU Pigskin Title

The Roundtowners, a team composed chiefly of ex-Circleville High School football stars, have been crowned the 1958 Independent Intramural Touch Football Champions at Ohio State University.

The Roundtowners swept through nine games undefeated to earn the championship against 47 other competing elevens.

Roger Bennington, a senior in physical education at OSU, coached the Roundtowners to the title. The Circleville spirited eleven featured a strong defense, which held their opponents scoreless in seven of the nine games played.

The offense also came in for its share of praise as it twice scored more than 25 points in a contest and was held to one touchdown in only one game.

* * *

SPEARHEADING the offense was the passing of Ronald Bennington, ex-high school and Kenyon College quarterback, and Dick Rhoads, whose previous passing experience included a year of quarterbacking for the Oakland Naval Hospital Team, Oakland, Calif.

The offensive running attack was sparkplugged by Roger Magill, former local high school back. The line play was led by three local youths who excelled in high school play.

They were Robert Lamb, Ronald Stucker and Charles Waple. Mike Hosler, ex-high school quarterback star, held down right end, while Roger Bennington operated out of the other end slot.

Winship Story Jr. saw considerable action in the line. Two boys from Youngstown, one from Cambridge and a youth from Canton, completed the Roundtowner squad.

St. Peters Tops Kingston, 42-24

Chillicothe St. Peters last night handed the Kingston junior high basketball team its first defeat of the season with a 42-24 shellacking.

St. Peters jumped to a 13-6 first quarter lead and was on top, 28-13 at halftime. The Redskins, handicapped by the loss of stellar center Albert, out with pneumonia, fell further behind in the third quarter, 35-18.

Chillicothe controlled the bankboards for its decisive victory. Top scorers for the evening were Hess and Wyman with 11 each for Chillicothe and Carper with eight for Kingston.

The Redskins next game will be with Clarksburg on the Kingston floor.

Amanda To Floor Small Cage Team

Amanda High School will have one returning letterman for its coming basketball team and will be small by present day standards.

Amanda, known as the "Aces", will be coached by Don LaBonte, in his first year at the helm. Returning varsity starter is Dick "Skip" Young, a 6-footer who spearheaded the Aces attack last year.

The varsity candidates, who will first see action Saturday against a strong Darby aggregation are juniors Skip Young; Jim "Cecil" Miller, 6'; Danny Waters, 5-9; Roger Smith, 5-11; Jack Willis, 6'; Melvin Ruff, 5-6, and Eddie Julian, 5-8.

Seniors are Ron Bresler, 5-7; and Dorwin Hill, 5-7. Sophomores breaking into varsity ranks are Lynn "Barney" Young, 6'; Roger "Gus" Garrett, 5-11; Dennis "Earl" Bates, 6'; Bill Brown, 5-9; and Terry Williams, 5-11.

* * *

THE RESERVE candidates consist of two juniors, three sophomores and 10 freshmen. The juniors are Larry Soliday and Stuart Roberts. Sophomores are Alan Henderson, Helmut Klemm and Roger Ruble.

Freshmen out for the first time are Darrell Young, Gary Young, Larry Beougher, Kenny Hampshire, Alan Butterbaugh, Don LaBonte, Gerald Stoughton, Don Julian, Benny Hunter and Jim McKenzie.

Last year the Aces registered a 10-10 slate. They tallied 1,035 points during the regular season for a 57.5 average per game.

Amanda allowed its opponents 1,044 points for an average of 58 points a game. Skip Young was eighth in Pickaway County area scoring with a total of 217 points in 18 games for a 12.1 average.

Farrell To Pilot Buffalo Bisons

BUFFALO, N. Y. (AP)—Kerby Farrell, former field manager for the Cleveland Indians, was named today to manage the International Baseball League's Buffalo Bisons next season.

Farrell, who is in Venezuela where he is managing the Oriente club in the winter league, replaces Phil Cavarretta. The Bisons finished in the cellar last season.

Farrell, 45, started as a manager in Erie, Pa., in 1941 in the Class C Middle Atlantic League. He finished sixth with Cleveland in 1957, and last year managed the Miami Marlins of the International League.

Sen. Frost Wins $10,000 Feature

INGLEWOOD, Calif. (AP)—Sen. Frost won the eighth race at Hollywood Park Wednesday night, the $10,000 Sunset one mile trot.

Sen. Frost took command on the backstretch from Annette Sue, drew out on the stretch turn and finished strongly.

Sen. Frost paid $7.30, $460 and $2.50

The world record holding trotter, owned by Wayne Galvin of Wilmington, Ohio, and Ray Foster of Lima, Ohio, is expected to be returned to the Buckeye State shortly.

FAT OVERWEIGHT
Now available to you for first time without a doctor's prescription, our new drug called ODRINEX. You must lose ugly fat in 7 days or your money back. No more starvation diets, strenuous exercise, laxatives, massage or taking of so-called reducing candies, crackers or cookies, or chewing gum. ODRINEX is a tiny tablet and easily swallowed. Absolutely harmless. When you take ODRINEX, you still enjoy your meals, still eat the foods you like, but you simply don't have the urge for extra portions because ODRINEX depresses your appetite and decreases your desire for food. Automatically your weight must come down, because as your own doctor will tell you, when you eat less, you weigh less. Get rid of excess fat and live longer. ODRINEX is sold on this GUARANTEE: You must lose weight within 7 days or your money back. Just return the package to your druggist and get your full money back. ODRINEX costs $3.00 and is sold with this strict money back guarantee by:

Tight Finances Due To Face Ohio Assembly

Republican Spokesman Says Tax Increase May Be Required

CANTON, Ohio (AP)—The Ohio Legislature which meets in January faces the most critical session on finances since the 1930s.

So says State Sen. Charles A. Mosher, Oberlin Republican.

"Unless we increase taxes," Mosher said, "the state must either streamline its operation by promoting more efficient business practices and controls or by killing outright or drastically reducing some state services."

Mosher told the fifth biennial Northeastern Ohio Legislative Conference on Health and Welfare Wednesday:

"Every last cent of revenue of the last biennial was budgeted so that new Legislature will have no cushion or leeway whatsoever to work with."

The senator, chairman of the education and health committee in the state Senate, said two major sources of increased revenue would be an additional one cent on sales tax or a graduated state income tax.

He said the AFL-CIO has urged the graduated income tax and "I believe the AFL-CIO is going to have something to say in this Legislature."

It is significant, Mosher said, "that neither candidate for governor nor his party committed itself on any promise of no new taxes during the last election campaign."

John P. Coleman of the Ohio Municipal League commented that a state income tax would eliminate the municipal income taxes now in operation in some three dozen communities and would cause serious financial trouble in these cities.

The conference was divided into five simultaneous sessions to discuss aging and chronic illness, mental health and mental retardation, juvenile problems, public welfare and public health and medical care.

Robert A. Haines, director of the State Department of Mental Hygiene and Correction, told a discussion group lawmakers should consider entering Ohio in the inter-state mental health compact.

He said this would better help rehabilitation of non-resident patients by making provision for their treatment in their home states and among their own families.

Another suggestion made at the one-day conference was that the Legislature should eliminate both the $65-a-month limitation on payment to aid-for-the-aged clients and the state requirement that recipients cannot have an income in excess of $960 a year.

"Present estimates indicate that the increases costs incurred by these eliminations would be entirely subsidized by increased federal matching funds that became available by congressional action Oct. 1," said Vernon Burt of the welfare federation of Cleveland.

Judge Harold S. Ewing of Lorain County Juvenile Court said the Legislature should consider setting up a state department or division that would handle nothing but the problems of child welfare and correction.

He said insufficient facilities plus a lack of leadership on the state level due to organizational complexities has seriously cramped operation of any type of child welfare program in Ohio.

The meeting was sponsored by the Ohio Citizen's Council.

Bandmothers 'Mile of Pennies' Campaign Tops Goal by $25

Circleville Bandmothers' Assn. Tuesday night counted the final penny for their 'Mile of Pennies' campaign and discovered that friends of the Circleville High School Band had contributed 74,208 pennies since the drive started on October 1.

School children from grades one to six and members of the junior and senior bands have been collecting the pennies in coinbooks, each holding twelve pennies, which were donated to the Bandmothers by the Circleville Savings and Banking Company.

Bandmothers, with the assistance of some Band Dads collected penies in red buckets at the home football games.

The goal of $633.60 (5,280 feet of pennies) was exceeded by $25.48 after $83 of prize money was subtracted. An additional $30 for individual prizes was donated by a Band Dad.

• • •

PRIZES OF $10 each, were distributed Friday by the chairmen to the rooms in each of the eight grade schools which collected the greatest number of feet of pennies.

Final scores of the schools were as follows: High Street School — six rooms, 165 pupils—647 books—first prize—sixth grade, Mrs. Earl Smith, teacher, 173 books;

Wayne Twp. School—four rooms, 89 pupils—391 books—first prize — sixth grade, George Mallett, teacher, 217 books; Mound Street School —five rooms — 160 pupils — 217 books — first prize — first grade, Mrs. Lawrence Johnson, teacher, 59 books;

Franklin Street School — eight rooms, 215 pupils — 529 books — first prize—fourth grade, Mrs. Wanda Tacy, teacher, 71 books; Court Street School — seven rooms, 190 pupils — 442 books — first prize—sixth grade, Mrs. Anna Brevard, 125 books;

Corwin Street School—six rooms, 171 pupils—464 books—first prize—fourth grade, Mrs. Beatrice Kifer, teacher, 163 books Walnut Street School—five rooms, 147 pupils — 520 books — first prize — second grade, Mrs. Maxine Scranton, teacher, 284 books;

Atwater School — 12 rooms, 333 pupils—1,019 books — first prize — fourth grade, Mrs. Elliott Barnhill, teacher, 152 books; Senior Band—932 books, and the Junior Band—218 books.

• • •

HIGHEST SCORES in the schools were recorded by the following: High Street School—Wayne Winner, sixth grade, 55 books; Wayne Twp. School — Brenda Le Master, sixth grade, 165 books;

Mound Street—Virginia Gillis, 11 books; Franklin Street — Beverly Lane, third grade, 51 books; Court Street — Robert Brown, sixth grade, 31 books; Corwin Street — Joyce Jacobs, fourth grade, 76 books;

Walnut Street—Mike Kaylor, second grade, 125 books; Atwater School — Sandra Weidinger, sixth grade, 55 books; Junior Band, Mary Jane Smith, 211 books; Senior Band—Elaine Goldschmidt, 278 books.

Awards of $15, $10 and $5 respectively, were given to Elaine Goldschmidt, member of the senior band for collecting the most feet of pennies—278; to Mary Jane Smith of the junior band for second place with 211 feet of pennies, and to Brenda Le Master, sixth grade student at Wayne Twp. for 165 feet.

The Bandmothers voted to award a consolation prize of three dollars to the child who had also exceeded 100 feet. It was presented to young Mike Kaylor, second grade pupil at Walnut Street, who collected 125 feet of pennies.

Speaking through their president, Mrs. Ray W. Davis, the Bandmothers had this comment to make, "The success of the 'Mile of Pennies' means that we shall meet the budgetary needs of the Circleville High School Band for this year.

• • •

"THE LARGEST part—$500—is required for the permanent fund for the purchase of a new set of uniforms in 1962. The remainder of the money is allocated for current repairs and replacements of uniforms, for the expenses of out-of-town trips and $100 for the annual 'treats' for bandmembers."

"We are grateful to all the friends of the Circleville High School Band who 'Lent a Hand by Giving a Foot of Pennies', to the teachers who kept the records, and to the Circleville Savings and Banking Company which not only secured the coinbooks for us, but welcomed the chairmen every Monday morning for seven weeks with hot coffee while they were counting and packaging the pennies," stated Mrs. Davis.

"We feel that the 'Mile of Pennies' accomplished its goal through family participation throughout the whole community and we are especially happy to see how younger school children have been stimulated, through this means, to interest in becoming future bandmembers," concluded the Bandmothers head.

Jaycees To Induct New Members Tonight

The Circleville Junior Chamber of Commerce will hold an orientation dinner meeting tonight at 6:30 in Tink's Tavern.

All new members are urged to attend. Guest speakers will be Richard Ringwald, Chillicothe, and Edgar Webb, former local Jaycee president.

Since World War II the British Navy has been withdrawing from Bermuda and now maintains only a small station there.

Be Careful When Roasting Stuffed Bird

What is your choice for the holiday feast: a frozen stuffed turkey or a home-stuffed bird?

In either case, R. L. Blaney and John Himrod, local health officials have some advice for you. Their information is based on reports from the U. S. Public Health Service and the American Institute of Baking.

When roasting a frozen stuffed turkey, a minimum temperature of 165 degrees Fahrenheit must be reached in the center of the stuffing. This "lethal temperature" destroys harmful bacteria, Himrod and Blaney said.

They labeled as "unsatisfactory" the common practice of merely testing the meat with a fork, or of taking the temperature of the turkey thigh or breast.

They advised against partially roasting a turkey and holding it for roasting later. Roasting shouldn't be interrupted until the 165-degree temperature is reached.

"Bringing the temperature of the stuffing to the recommended temperature, plus roasting until the turkey has a pleasing appearance of doneness, will assure homemakers a safe dish," they commented.

• • •

AS FOR HOME-stuffed birds, the health officials continued, "stuffing in advance of roasting is a food poisoning hazard. They advised combining the stuffing ingredients and filling the ready-to-cook bird just prior to roasting.

But when last-minute stuffing isn't practical, they offered these timesaving alternatives:

For moist stuffings: 1. Refrigerate prepared liquid ingredients. 2 Measure and prepare dry ingredients. Store at room temperature. 3. Combine ingredients just before stuffing and roasting the bird.

For dry stuffings: 1. Combine ingredients (with the exception of raw egg if used), and refrigerate 2. Stuff the bird just before roasting.

Welding Class Is Scheduled

An evening arc welding school for adults will begin Tuesday at Jackson Twp. High School. The school will be conducted one night a week for five consecutive weeks. It is for beginners and others wishing to improve their welding skill.

Hillis Hall, Jackson High School Vocational Agriculture teacher, will instruct, teaching welding in various positions, on different kinds of metals, welding cast iron, handsurfacing and soldering, cutting and brazing with an arc welder. Everyone who attends all five sessions will receive a certified diploma.

A nominal fee will be charged for the course.

The course is based on instructions developed by The Lincoln Electric Co., who make arc welding equipment and have been conducting welding schools since 1917. Harmon & Schelb, local Lincoln Weldealer, will sponsor and supervise the course.

All interested in learning to weld are asked to attend the first meeting, Tuesday, at 7:30 p. m. at the Jackson High School Farm Shop. Advance registration may be made by calling the office of the Jackson School, GR 4-4605. Enrollment will be limited.

Tight Finances Due To Face Ohio Assembly

Republican Spokesman Says Tax Increase May Be Required

CANTON, Ohio (AP)—The Ohio Legislature which meets in January faces the most critical session on finances since the 1930s.

So says State Sen. Charles A. Mosher, Oberlin Republican.

"Unless we increase taxes," Mosher said, "the state must either streamline its operation by promoting more efficient business practices and controls or by killing outright or drastically reducing some state services."

Mosher told the fifth biennial Northeastern Ohio Legislative Conference on Health and Welfare Wednesday:

"Every last cent of revenue of the last biennial was budgeted so that new Legislature will have no cushion or leeway whatsoever to work with."

The senator, chairman of the education and health committee in the state Senate, said two major sources of increased revenue would be an additional one cent on sales tax or a graduated state income tax.

He said the AFL-CIO has urged the graduated income tax and "I believe the AFL-CIO is going to have something to say in this Legislature."

It is significant, Mosher said, "that neither candidate for governor nor his party committed itself on any promise of no new taxes during the last election campaign."

John P. Coleman of the Ohio Municipal League commented that a state income tax would eliminate the municipal income taxes now in operation in some three dozen communities and would cause serious financial trouble in these cities.

The conference was divided into five simultaneous sessions to discuss aging and chronic illness, mental health and mental retardation, juvenile problems, public welfare and public health and medical care.

Robert A. Haines, director of the State Department of Mental Hygiene and Correction, told a discussion group lawmakers should consider entering Ohio in the inter-state mental health compact.

He said this would better help rehabilitation of non-resident patients by making provision for their treatment in their home states and among their own families.

Another suggestion made at the one-day conference was that the Legislature should eliminate both the $65-a-month limitation on payment to aid-for-the-aged clients and the state requirement that recipients cannot have an income in excess of $960 a year.

"Present estimates indicate that the increases costs incurred by these eliminations would be entirely subsidized by increased federal matching funds that became available by congressional action Oct. 1," said Vernon Burt of the welfare federation of Cleveland.

Judge Harold S. Ewing of Lorain County Juvenile Court said the Legislature should consider setting up a state department or division that would handle nothing but the problems of child welfare and correction.

He said insufficient facilities plus a lack of leadership on the state level due to organizational complexities has seriously cramped operation of any type of child welfare program in Ohio.

The meeting was sponsored by the Ohio Citizen's Council.

Bandmothers 'Mile of Pennies' Campaign Tops Goal by $25

Circleville Bandmothers' Assn. Tuesday night counted the final penny for their 'Mile of Pennies' campaign and discovered that friends of the Circleville High School Band had contributed 74,208 pennies since the drive started on October 1.

School children from grades one to six and members of the junior and senior bands have been collecting the pennies in coinbooks, each holding twelve pennies, which were donated to the Bandmothers by the Circleville Savings and Banking Company.

Bandmothers, with the assistance of some Band Dads collected penies in red buckets at the home football games.

The goal of $633.60 (5,280 feet of pennies) was exceeded by $25.48 after $83 of prize money was subtracted. An additional $30 for individual prizes was donated by a Band Dad.

PRIZES OF $10 each, were distributed Friday by the chairmen to the rooms in each of the eight grade schools which collected the greatest number of feet of pennies.

Final scores of the schools were as follows: High Street School — six rooms, 165 pupils—647 books—first prize—sixth grade, Mrs. Earl Smith, teacher, 173 books;

Wayne Twp. School—four rooms, 89 pupils—391 books—first prize — sixth grade, George Mallett, teacher, 217 books; Mound Street School —five rooms — 160 pupils — 217 books — first prize — first grade, Mrs. Lawrence Johnson, teacher, 59 books;

Franklin Street School — eight rooms, 215 pupils — 529 books — first prize—fourth grade, Mrs. Wanda Tacy, teacher, 71 books; Court Street School — seven rooms, 190 pupils — 442 books — first prize—sixth grade, Mrs. Anna Brevard, 125 books;

Corwin Street School—six rooms, 171 pupils—464 books—first prize—fourth grade, Mrs. Beatrice Kifer, teacher, 163 books Walnut Street School—five rooms, 147 pupils — 520 books — first prize — second grade, Mrs. Maxine Scranton, teacher, 284 books;

Atwater School — 12 rooms, 333 pupils—1,019 books — first prize — fourth grade, Mrs. Elliott Barnhill, teacher, 152 books; Senior Band—932 books, and the Junior Band—218 books.

• • •

HIGHEST SCORES in the schools were recorded by the following: High Street School—Wayne Winner, sixth grade, 55 books; Wayne Twp. School — Brenda Le Master, sixth grade, 165 books;

Mound Street—Virginia Gillis, 11 books; Franklin Street — Beverly Lane, third grade, 51 books; Court Street — Robert Brown, sixth grade, 31 books; Corwin Street — Joyce Jacobs, fourth grade, 76 books;

Walnut Street—Mike Kaylor, second grade, 125 books; Atwater School — Sandra Weidinger, sixth grade, 55 books; Junior Band, Mary Jane Smith, 211 books; Senior Band—Elaine Goldschmidt, 278 books.

Awards of $15, $10 and $5 respectively, were given to Elaine Goldschmidt, member of the senior band for collecting the most feet of pennies—278; to Mary Jane Smith of the junior band for second place with 211 feet of pennies, and to Brenda Le Master, sixth grade student at Wayne Twp. for 165 feet.

The Bandmothers voted to award a consolation prize of three dollars to the child who had also exceeded 100 feet. It was presented to young Mike Kaylor, second grade pupil at Walnut Street, who collected 125 feet of pennies.

Speaking through their president, Mrs. Ray W. Davis, the Bandmothers had this comment to make, "The success of the 'Mile of Pennies' means that we shall meet the budgetary needs of the Circleville High School Band for this year.

• • •

"THE LARGEST part—$500—is required for the permanent fund for the purchase of a new set of uniforms in 1962. The remainder of the money is allocated for current repairs and replacements of uniforms, for the expenses of out-of-town trips and $100 for the annual 'treats' for bandmembers."

"We are grateful to all the friends of the Circleville High School Band who 'Lent a Hand by Giving a Foot of Pennies', to the teachers who kept the records, and to the Circleville Savings and Banking Company which not only secured the coinbooks for us, but welcomed the chairmen every Monday morning for seven weeks with hot coffee while they were counting and packaging the pennies," stated Mrs. Davis.

"We feel that the 'Mile of Pennies' accomplished its goal through family participation throughout the whole community and we are especially happy to see how younger school children have been stimulated, through this means, to interest in becoming future bandmembers," concluded the Bandmothers head.

Jaycees To Induct New Members Tonight

The Circleville Junior Chamber of Commerce will hold an orientation dinner meeting tonight at 6:30 in Tink's Tavern.

All new members are urged to attend. Guest speakers will be Richard Ringwald, Chillicothe, and Edgar Webb, former local Jaycee president.

Since World War II the British Navy has been withdrawing from Bermuda and now maintains only a small station there.

Be Careful When Roasting Stuffed Bird

What is your choice for the holiday feast: a frozen stuffed turkey or a home-stuffed bird?

In either case, R. L. Blaney and John Himrod, local health officials have some advice for you. Their information is based on reports from the U. S. Public Health Service and the American Institute of Baking.

When roasting a frozen stuffed turkey, a minimum temperature of 165 degrees Fahrenheit must be reached in the center of the stuffing. This "lethal temperature" destroys harmful bacteria, Himrod and Blaney said.

They labeled as "unsatisfactory" the common practice of merely testing the meat with a fork, or of taking the temperature of the turkey thigh or breast.

They advised against partially roasting a turkey and holding it for roasting later. Roasting shouldn't be interrupted until the 165-degree temperature is reached.

"Bringing the temperature of the stuffing to the recommended temperature, plus roasting until the turkey has a pleasing appearance of doneness, will assure homemakers a safe dish," they commented.

• • •

AS FOR HOME-stuffed birds, the health officials continued, "stuffing in advance of roasting is a food poisoning hazard. They advised combining the stuffing ingredients and filling the ready-to-cook bird just prior to roasting.

But when last-minute stuffing isn't practical, they offered these timesaving alternatives:

For moist stuffings: 1. Refrigerate prepared liquid ingredients. 2 Measure and prepare dry ingredients. Store at room temperature. 3. Combine ingredients just before stuffing and roasting the bird.

For dry stuffings: 1. Combine ingredients (with the exception of raw egg if used), and refrigerate 2. Stuff the bird just before roasting.

Welding Class Is Scheduled

An evening arc welding school for adults will begin Tuesday at Jackson Twp. High School. The school will be conducted one night a week for five consecutive weeks. It is for beginners and others wishing to improve their welding skill.

Hillis Hall, Jackson High School Vocational Agriculture teacher, will instruct, teaching welding in various positions, on different kinds of metals, welding cast iron, handsurfacing and soldering, cutting and brazing with an arc welder. Everyone who attends all five sessions will receive a certified diploma.

A nominal fee will be charged for the course.

The course is based on instructions developed by The Lincoln Electric Co., who make arc welding equipment and have been conducting welding schools since 1917. Harmon & Schelb, local Lincoln Weldealer, will sponsor and supervise the course.

All interested in learning to weld are asked to attend the first meeting, Tuesday, at 7:30 p. m. at the Jackson High School Farm Shop. Advance registration may be made by calling the office of the Jackson School, GR 4-4605. Enrollment will be limited.
